

DSS Done Killed Them Another Baby !!! Part II– Baby Killed After DSS Claims All Clear!!– Autopsy Report Finally Arrives from NC Medical Examiner– Report Obtained by Robert A. Williams

Remember little three year old Jordyn Ann Dumont who was reported missing just across the county line in Bessemer City while her mother's boyfriend was baby sitting? Only to be found a day or two later dead and buried in a shallow grave nearby. Scroll on back to the "DSS Done Killed Them another Baby" from back in August. I requested the autopsy report and it was received today, November 29, 2016.

I am attaching the autopsy report at the end of this very short introduction. The autopsy report speaks for itself. For your convenience I have looked up two medical terms that will help you understand the severity of the assault and killing of this child as well as the possible motive, as sick as it is.

Those medical terms are:

Contusion which means a region of injured tissue or skin in which blood capillaries have been ruptured; a bruise. synonyms: bruise, discoloration, injury

Ecchymosis which means a discoloration of the skin resulting from bleeding underneath, typically caused by bruising. The location of one of these ecchymosis is telling as a possible motive for such a heinous act as perpetrated upon this little

girl that DSS falsely claimed was safe in her residence.

Perhaps you should sit down before you read this autopsy report.
