Breaking News!!! Breaking News!!!— Cleveland Community College Board of Trustees Chairman Resigns in Protest??? —Report by Robert A. Williams

An email report to me has just arrived that states Cleveland Community College Board of Trustees Chairman, Ellis Monroe, has resigned in protest regarding the scandals that are engulfing CCC. I will confirm this report as soon as possible.

I believe this report is true and believe all eleven of the CCC Board of Trustees should and will resign in short order. Other yet unsubstantiated reports indicate an "Atomic Explosion" is about to descend on CCC and in other places due to the information that was provided in my previous article. Scroll on back and decide for yourself whether or not some folks deserve prison time for what they have done.

Note that the article was only Part I of many to come.
