

Conservative Black Women says “Democrat Party was ALWAYS Racist!!!” Predicts “Great ‘Black’ Exodus from Democrat party” After 50 “White” ANTIFA Protesters Harass her and 71 People black persons shot over This Weekend in Chicago–Which has toughest gun laws in America!!

Candace Owens is a young black woman who happens to be conservative in her political viewpoint. Ms. Owens and a white co-worker had gone to a coffee shop for coffee when 50 white ANTIFA protesters harassed them, under the instigation of US Representative Maxine Waters from California, to attack conservatives wherever you find them. forced Owens and her co-worker out of the coffee shop and onto the street. Calling her racist names, etc. A squad of mostly black police officers arrived on the scene and the ANTIFA protesters called the police racists too.

To this Ms. Owens yelled back at the protesters; “We love the Police, We love America, We love the USA.!!”

Later, in an interview on Fox News, Ms Owens and her white co-worker said they were appalled that 71 black persons were shot over the weekend in Chicago-a -Democrat controlled city-and predicted that there would soon be a “Great Black Exodus from

the Democrat Party" across America.

With the Plantation Politics in the 2017 Cleveland County School Board Election and in the 2018 Democrat Primary Election headed up by Democrat Commissioner Eddie Holbrook, my prediction is there will be a very large black and white Democrat voter "Exodus" of support for Commissioner Holbrook on November 6, 2018. Election Day-2018. That support going to Write-In Candidate Willie Green, Doug Bridges and Deb Hardin. Republicans all.
