

DSS Kills ANOTHER Baby!!!

“Never saw such people be so proud of being so stupid!!”

Report by Robert A. Williams

How many babies have been killed because of DSS incompetence? How many babies have been killed because of the Cleveland County DSS's incompetence?? Ask Cleveland County Commissioner Susan Allen, who also is the Chairman of the CCDSS. I believe Allen would have to say ZERO because she refuses to believe DSS does anything wrong. That has been my experience with Susan Allen and the CCDSS. I also believe the confidentiality that DSS cloaks itself in is in large part a cover-up of just how bad things really are at DSS.

So, who is in control of DSS? The taxpayers and voters surely don't know or they would demand changes to straighten that crowd out.

Now, do you remember the episode just a few years back when an Animal Control officer in Union County, while looking for a loose pig, ran across a foster child handcuffed to a rail on the front porch of his foster home with a dead chicken tied around his neck? That story went around the world several times and if you don't remember anything about it, please do not vote in this years elections as you are so uninformed that you are a danger to yourself and others. The foster mother was a DSS Supervisor to boot.

The Union County Commissioners were thoroughly embarrassed by that incident and supposedly made major changes at the Union County DSS top leadership such that such incompetence would forever NOT be repeated. Well it appears like “forever” at the Union county DSS did NOT last too long.

Now, also remember Hurricane Florence went through Union County just last week. Remember the news about the death of the one year old baby who was swept out of his mothers arms by the flood waters, only to be found dead downstream a little later? Remember all the news reports showing all the Union County officials who were so saddened by such a thing happening and asking for prayers for the family because of this great tragedy?

Well, the truth of the matter is slowly coming out. The official news reports and county official interviews have played down what really happened in this incident. What happened is this, according to family members and people in the know, the mother was driving what appeared to be a relatively late model Lincoln Towncar down a road in Union County during all the flooding. Police had erected a barricade to stop traffic from continuing down that road because of heavy flooding ahead. The mother drove around that barricade and continued. When the mother reached the flooded roadway, she kept on driving as long as the car could go. The vehicle finally reached the point that raging floodwaters washed the relatively big car off the road into some trees.

Then, when the car was thoroughly incapable of going any further, and flooded, the mother rescued herself, barely, and then removed the baby from the car seat only to have the rushing waters separate her from the baby who was washed away. That is the mother's story. Such a mother was either "stuck on stupid" or in some kind of state where reality had left her.

Now, all this stupid stuff from the mother indicated to me that this person who had directly caused the death of her baby deserved to be arrested and thrown in jail. And , maybe she was. But the story leaking out is that very same mother had three older children who had been taken away from her by DSS, leaving only the baby.

Leaving the baby? The most vulnerable and helpless of the four

children??? How could the Union County DSS have been so stuck on stupid too? Especially after all the mess about the boy with the dead chicken tied around his neck.

However, in all the DSS horror stories that I have heard about, taking older children away from an unfit mother and leaving the youngest child is not out of the ordinary. It is a matter of money and the DSS bureaucracy wanting to spending that money. You see, if DSS took all of this unfit mother's children, that unfit mother would no longer represent a DSS case. And with just a few such cases, a DSS worker's job would no longer be necessary. Well, if you know anything about DSS, you know that DSS jobs never decrease. It is always more and more and children are actually protected less and less.

Although this case at hand did not happened in Cleveland County. This time. But there have been many similar cases where children have been killed right under the noses of the Cleveland County DSS.

There is also the case where a Federal lawsuit was recently filed against the Cleveland County DSS and DSS workers actually admitted under oath that they had purposely violated and had been directed to violate State and Federal laws and DSS policy. Yet Susan Allen, backed by Eddie Holbrook and the rest of the Commissioners never required that the scofflaws be disciplined in any way. And, in fact, Commissioner Holbrook chose to defame the DSS victim.

Union County has no monopoly on being stuck on stupid. Cleveland County has their share and apparently are proud of it. One observer of CCDSS and Commissioner stupidity stated "I have never seen people be so proud of being so stupid." My reply was "you should add the voters that elected these nitwits to your statement."

What about you??? What will you do to rid Cleveland County of such as this article has described? If you don't know what to

do, Stay Tuned for the answer.
