

UPDATE!!! Is Teacher-Student Homosexual Relationship a Crime??? Sheriff Investigating—CCS Cooperating!!! District Attorney Employee's child allegedly involved!!

UPDATE:

Comments from the original article as well as confirmation from sources are as follows:

A female teacher, Math at Crest High School, has been discovered carrying on a lesbian relationship with a female student. CCS has forced the teacher to resign so news reports in the Star can call her a “former” teacher. This is an old trick that everybody sees through. The teacher’s mother works in the DA’s Office and her dad is a sheriff’s office employee. Note that I erroneously had the offender-victim relationship reversed in the original article. I have been set straight. Please excuse me for any inconvenience.

It is reported that criminal charges against the teacher will be filed this week.

It is also been reported that the CCS Board has not been apprised and updated on this situation. This article should take care of that. But such a situation clearly indicates a lack of management leadership by the school board, who, like about every scandal that comes down the road at CCS can be swept under the rug with school board members saying they

don't know anything about it.

So, by forcing the teacher to resign before charges are brought, CCS can get by without taking disciplinary actions themselves and may not have to report the infraction to the NC School Board division who would be obligated to suspend the teacher's license. If the DA's Office fails to vigorously prosecute the charges, as may happen since the DA's office has a high percentage of lesbian employees who might consider the teacher as doing nothing wrong, this teacher may soon find employment at another school in South Carolina and end up back in North Carolina as another teacher has done.

Stay tuned to this incident of high public interest in Cleveland County

Original Article:

Something very fishy is going on down at the Courthouse. At Crest High School too.

The Shelby Star reported today that the Sheriff's Office is presently investigating a "possible" teacher-student relationship and whether or not it is a crime. The parts that are very fishy is the fact that the Sheriff's Office released anything about an ongoing investigation. And the Star actually printed it.

My sources report that the student attends Crest High School and is the female child of a District Attorney employee with very close association to DA Mike Miller. And that the alleged relationship is a lesbian relationship. My sources also report that the news and details of the allegation and the Sheriff's investigation is sweeping the county as we speak.

It is hard to imagine that any sexual relationship between a teacher and a student is not a crime. Homosexual/Lesbian or not. The whole idea is that the teacher has this power figure influence over a student which must not be abused in a sexual

way. A homosexual or lesbian relationship can be just as damaging, maybe more, to a child than an illegal heterosexual relationship.

I suspect that the Sheriff's Office, the DA's Office and the CCS are burning the midnight oil trying to keep this incident under wraps, which has already failed. I would think the 13th or 14th Amendment, the one that requires equal treatment under the law, is a big lump for all concerned to swallow. If this homosexual relationship did, in fact, happen, the teacher should be charged and prosecuted to the fullest. Otherwise lots of men teachers convicted of having sex with a female student may have to be turned loose.

The contents of the Star article, for what it is worth, are as follows:

Investigation into possible teacher/student relationship

By Diane Turbyfill

Shelby Star staff

Posted at 1:43 PM Updated at 1:43 PM 9-28-2018

The Cleveland County Sheriff's Office is investigating a report of an inappropriate and potentially criminal relationship between a Cleveland County high school teacher and a high school student.

The investigation began Monday.

The Cleveland County School System is aware of the investigation and is cooperating, according to a statement from the Sheriff's Office.

"This remains an active investigation, so there will be no further information released by Cleveland County Sheriff's Office at this time," the statement said.
