What is Going on at the Sheriff’s Department?? At Schools??? Police Brutality and More Police Brutality or what??? And the Sheriff & CCS still Ain’t Talking!!! Another Report by Robert A. Williams

First it was the CONFIRMED report that a Sheriff’s Deputy was trying to push somebody off his porch and in the attempt the Deputy also went off the porch with the man happening to fall on top of the Deputy’s leg. Breaking the Deputy’s leg. That was December 27, 2018.

Monday Morning February 18, 2019 at Crest High School a CONFIRMED report comes in that a white LGBTQ School Resource Officer tazed a black female student, alleged to be pregnant.

And the Sheriff ain’t talking and the schools ain’t talking neither. (Double negative for journalistic effect.) Neither are the Cleveland County Commissioners.

OK Sheriff, CCS and Cleveland County Commissioners! We the People want to know that us citizens are safe at home and that our children are safe at school from Police Brutality in any shape, form, color or gender. We want answers now about these two most recent events and we want to know all along about anything else along the way. Just not talking is not acceptable.

We are taking names and keeping score. All the way to the ballot box. Pay us no attention at your own risk. Not a threat, just a promise. America is NOT based on TRUST. It is based on checks and balances. Informed citizens provide the best checks and balances. We are doing just exactly what the Constitution says is our responsibility. We expect YOU to live up to YOUR responsibility too. Not only do we expect it, we are demanding it.

Stay Tuned folks. Election Day for the School Board and Commissioners is just 21 months away. Filing for these offices begins in about 12 months. We need five good candidates for the school board and three good candidates for Commissioner and there can be a new majority in both places.
