

Breaking News!!! Watch the Latest CCS Video—RIGHT NOW!!! All Citizens Need to Watch the CCS Video for the October 14, 2019 School Board Meeting Right Now!! Be prepared to get mad!!! Lawsuits Possible!! Advanced notice and warning by Robert A. Williams

Folks, I often say to those who are reading my articles, “Don’t believe a word I say, watch the video” of the School Board meetings. This time I am requesting you NOT to wait the few days it takes me to write up and publish my article on the October 14, 2019 School Board Meeting. That will come soon enough, read it when you can. This time my advice is to watch the CCS video right now! Especially the Adoption of the Agenda and Public Participation parts that comes early into this long meeting. And, be prepared to get mad about how children and parents are treated by CCS and how angry those parents are when they come to the School Board for answers, only to get shut down at three minutes. And don’t get any right answers from the school board in the process.

This egregious school board meeting viewership has already climbed past 350 views in two hours. At this rate it will surpass the all-time record of views, 2,500 plus for the

August 26, 2019 school board meeting by Thursday. Viewers will surely be telling their friends, family and neighbors the sad tale of the sorry Cleveland County School Board AND CCS Administration.

In the meantime, I will get my full report out as soon as possible. Stay tuned.
