

Message from William Allen Gray-Republished by Robert A. Williams

Hello Neighbor,

Let me share a bit about the horrific event that CCS put Suzan Parris and her son through. Suzan's son was injured at school. (Assaulted by a teacher.)

Suzan pleaded with this Board for answers, the Board had little concern for her pleas. Suzan asked the Board to consider putting a new policy in effect that would help others avoid the trauma that she and her son had to endure. This suggestion was probable never seen, much less discussed. This is the way this Board works. They have more progressive, money wasting policies to attended to instead of Parents concerns. Far, too many of these types of issues have happened on the Hooker, Miller and Harris watch. What you see is what you will continue to get. Parents that are out of the loop, have no voice at CCS. We must dump these Fisher song birds (at the 2020 Elections).

A Mothers message to CCS

[OCTOBER 14, 2019~WILLIAM ALLEN GRAY](#)

Suzan McKinney Parris, Message presented at CCS Board Meeting:

—

As all of you know, I have a 14-year-old son, with Severe Autism who cannot speak. He attended North Shelby School. And even in my son's situation, not only am I a very strong believer in being innocent until proven guilty but also that the safety of the child trumps all cards. This being said, I want this board to put a new policy in place in the event that a school employee has been accused of harming a child. School will do as follows:

1 Notify the police immediately! (took school 7 days in my son's case, which I believe is against the law)!

2 Immediately launch an internal investigation.

3 Immediately put the accused on administrative paid leave until the conclusion of the investigations.

4 Notify the parents of 1-3. HIPPA may prevent you from telling me who but you can tell me what's going on! That's my GOD given right!

5 Give the parents the contact info of the investigating officer and vice versa! (I didn't know there was a police investigation which again, I believe is against the law) and my child can't speak!

6 Administration will notify this Board of the previous 5 steps.

7 The internal investigation will not take longer than 5 days! (21 days is beyond ridiculous).

8 At the conclusion of the internal and external investigations, Administration and the police, will notify the parents and this board! Of all findings.

Folks, I went through 6 months of pure Hades before I found the truth as to how my son got a 7-inch gash to the back of his head at school. And I don't want anyone else to go through this pain! My son is EVERYTHING to me and I know that GOD gave me my child for so many reasons. One of them being that God knew I would keep my baby safe no matter what it took nor the cost! But I can't do my job until you first do your job, so I know the truth about what's going on.

So, MAMA to MAMA, I am pleading with this board with EVERY fiber in me to find your backbone and fight for my baby as if he were your own. Put this policy in place so that parents like me can do our GOD given job of keeping our babies safe! Because If we can't protect the ones who can't protect themselves, WHAT IS THE POINT? WHAT ARE WE DOING HERE SCHOOL BOARD? So please, let's all rise up and team up once again along with this entire community, put this policy in place to make school safer and be the voice of EVERY child, even the ones who cannot speak, like my son!

SHALL WE???

Suzan McKinney Parris

(Editor's Note: This tragedy took place over a year ago and the Cleveland County School Board has done nothing but ignore and retaliate against Suzan Parris. Therefore, before your child comes home looking like this, OR WORSE. vote for School Board candidates Robert Queen, Ron Humphries, Joel Shores, Rodney Fitch and Samantha Davis in the 2020 School Board Elections.
