Art 8- Breaking News-COVID-19 Strikes Again at Boiling Springs Elementary. School!! COVID infestation kept Secret—School Still Open-For Now!!! Lie Detector Tests requested for Miller, Harris and Hooker!! —Source Report by Robert A. Williams

A source has reported that there are five or more Positive COVID-19 test results at Boiling Springs Elementary School-all staff, no kids infected per my trusted source. Even the Boiling Springs Principal whose wife was one of those positive test results that closed down Crest High School.

Also, the Cleveland County School Board also appears to be keeping this secret from the public. Not a peep from Shearra Miller, Richard Hooker and Roger Harris. Even though Roger Harris called himself a seasoned and veteran school board member at Tuesdays CCC School Board Candidates forum, these "seasoned veterans: are killing education at Cleveland County Schools. COVID-20 or not.

I have a totally appropriate question for School Board members running for re-election; Shearra Miller, Richard Hooker and Roger Harris.

Would YOU be willing to take a "Lie Detector Test???"
