

Rev. Dante Murphy Speaks out to “OLD” School Board!! Comment forwarded by Robert A. Williams

Chairperson Miller,

It is my understanding that in past years, the board will adjourn early during the December meeting and go to the Arts Council building for a celebration. It is my hopes that the celebration will not take place or even be offered this year. North Carolina Public Education is suffering across the state due to long-term negligence by the status quo. It is my hopes that the newly elected Cleveland County School Board members will begin to clean up the trail of blood left behind that includes, but not limited to:

- 1) sexual predators allowed to resign and go on to molest innocent children in other districts.
- 2) an incompetent school Superintendent who upon the advice of a fraudulent law firm conspired to file a frivolous lawsuit against Sheriff Alan Norman.
- 3) a school board that exploited blacks via the use of doing street-hooker amount favors for black preachers in exchange for black community support.
- 4) a school system stacked with friends and family for the purpose of maintaining the status quo.
- 5) a history of misappropriating school funds with no accountability.

The list goes on. If this email is offensive, then think of all the innocent people hurt by your leadership and others.

Rev. Dante' Murphy
