Rev. Dante Murphy has set out to “Make Crooked Places Straight!!” Including Cleveland County, North Carolina and Elsewhere!!! From the Pulpit, the Ballot Box or the Jury Box!!! No matter what!! Government Corruption can no longer hide behind systemic racism!! When the Corruption is gone, perhaps systemic racism will be mostly gone too!! Report and video provided by Robert A. Williams

Discussions about racism tends to divide the population. Each side calls the other side racists and nothing is ever resolved. Yet, most everybody, black and white and brown, can all agree that corruption needs to be rooted out of society and especially government. So corrupt politicians hide behind a racist camouflage and their corruption is hidden from view and discussion. The Racism narrative is used by elected officials everywhere as a license to steal, rob and kill.

Rev. Murphy has an answer to that. Attack corruption in all its forms. When the corruption is gone, most of the racism will likely be gone too. Then, perhaps, something can be done. **Crooked places can be made straight.**

The following link provides an insight in what makes Rev. Dante Murphy "tick." And how he started the idea to "Make Crooked Places Straight!!!" My prediction is the latest Federal lawsuit Rev. Murphy has filed against the Cleveland County Commissions and the DSS will go a long way in forcing Cleveland County to go **straight**. My recommendation to other Christian Preachers is to follow the lead of Rev. Murphy. Step out of the pulpit occasionally and stand-up and speak-out for the elimination of corruption in our society and government. Do NOT be a part of the corruption as all corruption has to do to succeed is for honest people to do nothing!
