

Covid Uncertainties Expected to be revealed at School Board Meeting Tonight!!! –Another school Shutdown, Mandatory vaccine discussions and vote is likely!!! TONIGHT August 9, 2021!!! –Report by Robert A. Williams

School Board member Danny Blanton reported at the July 26th, 2021 School Board Meeting that his Covid vaccination triggered a Rheumatoid Arthritis attack on him. The School Board voted 6-3 to make Covid vaccinations optional.

Sources report Commissioner Ronnie Whetstine in hospital with Covid and the incompetent Commissioners went wild, crazy and foolish at their August 3rd Commissioner's Meeting. A full report on that is forthcoming.

Atrium Health has mandated all their employees be vaccinated or be fired. Some have already been fired. Probably fired illegally.

A Freedom Rally and march was held Yesterday, 8, 2021 to raise awareness of the Constitutional rights being stripped from citizens by government over the Covid shutdowns and illegal firings. More on that later.

Sources predict a wild and crazy time at the School Board Meeting tonight. Fueled by Governor Roy Cooper and his Teacher's Unions trying to keep school's shutdown and pushing

for mandatory vaccinations for everybody. And, destroying our economy and our democracy⁶ in the process.

Everybody that can should attend the School Board Meeting tonight. Or, at least, watch the video.

Stay tuned folks. You've probably ain't seen nothing yet.

Editor's Note: A report from the School Board's so-called "Covid Committee" is NOT on the agenda tonight. Somehow this Covid Committee (the brainchild of Board Member Phillip "Poodle" Glover-who refused to serve on the Committee) has mysteriously disappeared forever without a trace. Same with Health Department "Covid" recommendations. Or the lack thereof!!!
