

Rogue CC Republicans Hold Secret Meetings!!! Say only through their “group” can Republicans be elected!!! Vow to beat School Board Member Danny Blanton in Republican Primary in 2022 Elections!!! Make State Senator Ted Alexander their first “Pawn!!!” Want New Lawsuit—Cleveland County vs. Robert A. Williams!!!!??? Gossip Report, facts, arguendo and conclusions by Robert A. Williams

Editor’s Note: Folks, I call this a gossip report in order to protect my sources from retaliation by the Rogues in the Cleveland County Republican Executive Committee. I believe my “sources” are 100% accurate and often one source has been independently verified by other sources.

Trump-hating, so-called Republicans; Wes Westmoreland, Dennis Bailey, Kevin Whisnant, David Allen and others have long been

on my radar scope ever since they enlisted State Senator Ted Alexander as a "pawn" to do their bidding. Like Appoint Luke Queen back onto the Cleveland Community College Board of Trustees. Now, I hear that at the October 28, 2021 Cleveland County Republican Party monthly meeting at the Creekside (Clock) Restaurant, Dennis Bailey was overheard saying that, from now on, NO Republican would be elected to a Cleveland County political office without going through him and his "group." I believe this 1,000% and have long said that the Republican Executive Committee "would rather have a Democrat Elected to office than a Republican that wouldn't kiss their asses!!" Besides election fraud, such defective thinking-as that is the main reason, we have a Democrat NC Governor and "Joe and his Ho" for President and Vice-President. What a disaster that "group" is!!!

I also learned, from multiple sources, that Dennis Bailey and his "group" (including Luke Queen) are recruiting school board Republican candidates and holding "secret" interviews of those candidates at Bailey's home for the purpose of getting enough Republicans (at least five are required) to remove long-time school board member Danny Blanton from office in the 2022 Republican Primary Elections.

Thinking like the Morons amongst Morons, that they are!!!

And, what has that "moron" kind of thinking gotten us?? A doubling of gas prices so far this year and rising even more almost every day. Inflation everywhere. So many people paid well not to work. Critical Race Theory being taught in our schools. Proposals to pay illegal immigrant families almost a half-Million dollars each to cross the border. It goes on and on. And probably the most egregious-surrendering Afghanistan to the Taliban and basically paying them to take it. Paying with (besides the blood of Americans) pallet loads of US currency, 350,000 M-16 machine guns, tanks, helicopters, etc. Some are now saying that the US could be under terrorist attack within the next six months. By the Taliban or ISIS-

using American Uniforms, American weapons and American Money.

And, don't forget that the Democrat "Progressives" want to spend Trillion\$ on social programs that will only result in "Socialism" and the destruction of the American Dream. My Presidential choice, Donald J. Trump, would have NEVER allowed that to happen.

And last, but not least, I heard from reliable sources that Luke Queen has asked the Commissioners to file a lawsuit against ME!!! **Cleveland County vs. Robert A. Williams**, On what grounds? I do not know. But, what a "hoot" that would be. I could counter-sue them and dare them to file a Motion to Dismiss. Better than that, depose them all, under oath, and charge them with criminal felony perjury if they tell lies. Note that the families of the black people killed in a Charleston, SC Church by Dillon Roof (Captured in Shelby, NC) sued the US Department of Justice (FBI) and settled for \$88 Million. They Claimed the DOJ/FBI botched their screening of Roof when he purchased his weapons. Imagine that, big time bucks from a governmental agency that was not doing their jobs properly?

Folks, Dennis Bailey, Luke Queen, Wes Westmoreland, Rev. Dr. Lamont Littlejohn have every right to think what they think and say what they say-within legal limits. What I always say, when you are undecided about who to vote for, figure out what candidate you like the least, hold your nose and vote for the other candidate(s). Wes Westmoreland, Dennis Bailey, Luke Queen, Kevin Whisnant, David Allen and the other Trump-Hater "tax and spend RINO Republican rogue practice of just not voting for either candidate (Trump or Biden) basically surrendered the election to Biden and his tax and spend Socialist Democrats. Anybody that would join in with that group might as well sign themselves into the insane asylum. Immediately, if not sooner.

Folks, Danny Blanton also attended that October 28th, 2021

Republican Party Meeting. Danny announced that he WILL be seeking re-election to the CCS School Board in 2022. All you sane Republicans (and sane Democrats too), Please vote to re-elect Danny Blanton to the Cleveland County School Board!!! All you sane School Board members, vote Robert "Luke" off as "Chairman" of the School Board this coming December, 2021. That December meeting is just six weeks away. Let Luke Queen cool his heels in the Cleveland County "Political Jail" for three more years. Where he can't do harm to himself and others!!! Let Luke Queen join Senator Ted Alexander as a "Lame Duck" until they resign or are thrown out of office. Perhaps a few others need to do the very same thing. Especially those that might decide to file a lawsuit against me or anybody else that disagrees with them. And says so!!!
