

Charlotte, NC Federal Court Jury awards \$10 Million to WHITE Man!!! for punitive damages in Civil Rights case against Novant Health!! Compensatory Damages awards still being added up!! US Housing and Urban Development (HUD) involved!!?? Question is, what, will Shelby and HUD have to pay a GREEN man??? Report and comparisons by Robert A. Williams

Part I: Introduction

Editor's Note: This article is dedicated to the City of Shelby's City Council, City Manager, Mayor and HUD in their unlawful Civil Rights violations involving the GREEN-Man and his killer Federal Civil Rights case against them!!

Folks, just last week, October 26, 2021, a federal court jury in Charlotte returned a verdict of guilty and awarded \$10 Million in Punitive Damages in a reverse discrimination case (David Duvall v. Novant Health Services, Inc–Case No. 3:19-cv-00624). Mr. Duvall, a white man, who was Senior Vice

President over Marketing and Communications at Novant, was fired (terminated) in the name of “diversity” and replaced with a BLACK man and a white WOMAN. Novant is mad as hell and considering an appeal. While the federal judge is determining the awards for lawyer bills, lost wages, reinstatement or “future” salary payments and other such damages that is likely to be in excess of another \$3 to \$5 Million to tack onto that \$10 Million Punitive Damage award.

Note that Punitive damages are used as an “incentive” to wrong-doers to make them do the right thing the next time. And from now on! The City of Shelby just refuses to learn that lesson. But, then a Multi-million dollar hasn’t come their way recently. But others have!!!

This newest outstanding case comes on top of cases against the Cherokee County Department of Social Services where a white man and his daughter won a Court Case and the Jury awarded them almost \$3 Million and around 30 other similar cases against the Cherokee county DSS are in the process of being filed.

Which follows cases in Buncombe County where a former Commissioner Chairwoman and others were charged with felony crimes and are going to prison.

Which follows a case in California where the Sacramento City Council has been found guilty in a Zoning Change case. Sacramento will be forced to pay somewhere between \$100 million to \$400 Million in compensatory and punitive damages to a developer. The compensatory damages (lawyer bills, lost profits, etc.) alone exceeds \$100 Million.

And NOW, the GREEN man (Willie Green, Sr. actually a BLACK man) has filed a killer Federal lawsuit against the City of Shelby. I say a “Killer Case” for good reasons. It goes like this: The Defendants themselves; the City of Shelby Officials: The Mayor, City Manager and the City Council members, through

their own acts and words have proved Mr. Green's case against them. And, some have felony-crime perjured themselves in the process. On that account, Mr. Green has made a written request to the District Attorney to investigate the City officials for perjury and has provided and furnished the DA with the undeniable and documented truth. If the DA refuses to prosecute the felony crimes that have been committed, the High DA, Mike Miller, may find himself sitting on the witness stand in the Federal Courthouse in Asheville. Along with the investigator for the Federal Agency-The US Department of Housing and Urban Development (HUD). Along with the Department of Justice. Note that Mr. Green has also served an "Intent to File a Lawsuit" against HUD for their mishandling on an investigation. What a "Hoot" that will be.

Actually, DA Miller and all the others agencies may find themselves on the witness stand anyway. Along with the City Officials. Mr. Green has filed a Civil Lawsuit, Not a criminal complaint. That means the Defendants, City Officials and the others, are not subject to the Fifth Amendment rights to NOT testify in Court. They CAN be called to testify. The only thing they can do, while on the stand and under oath, is tell the truth. If the truth is that they have committed a crime, they may take the Fifth Amendment. However, taking the Fifth Amendment in a Civil Trial is an **admission** that YOU **believe** that **YOU** are guilty of a crime that could later be criminally prosecuted based on your testimony in Civil Court. And the Judge would advise the Civil Court JURY that YOU believe you are guilty. And, based on the Court cases mentioned in the beginning of this article, juries are taking a very dim view of corrupt public officials. And the jury awards for such corruption tend to be very large. In the \$Million\$ Even in the Ten\$ and Hundreds of \$Million\$.

Now folks, Mr. Green's case is newly filed in Federal Court in Asheville and the details are moderately complicated and intertwined. Therefore, to allow you maximum understanding

(and me time to explain them), I have decided to break them down, issue by issue, in separate articles. I am sorry for any inconvenience. If you are a Shelby resident and taxpayer, perhaps you might want to sell-out and move away like many of your friends and neighbors have already done. While YOU still can!!!

Stay tuned!!! More "Parts"are coming. And some parts are still developing!!!
