

Part II – People are talking!!! CCS Admin sharing Porno with Burns Middle School Girls!!!! Full-fledged CRIMINAL INVESTIGATION underway!!! Rogue School Board trying to pass Policy to overrule State Law and shut-down “Citizen’s Participation” at meetings!!! Allegations of CCS Superintendent taking \$\$\$ to enhance Profits of Private Driver’s Education Business!! Sparks will fly at School Board Meeting Monday, December 13, 2021 at 5:00 PM!!! Report, research,

gossip, arguendo and conclusions by Robert A. Williams

Folks, I am just like most everybody else around the Thanksgiving Holidays, Black Friday, Cyber Monday. I'm doing the festivities and shopping chores. So, I too "go with the flow" and don't have much time for telling you how sorry the School Board is under Chairman Robert "Luke" Queen and all his cover-ups. How the County is wasting taxpayers' tax dollars. How Cleveland Community College is "blowing smoke" about how great they are and other such serious stuff. I knew you wouldn't have time to read about this, just as much as I didn't have the time to write about it. And also, we changed our website hosting to where you don't have to speak Chinese or India-Indian languages to understand those who might happen to answer the phone when you call them with a technical problem. Are you listening Amazon? Are you listening all you phony Medicare insurance and car warranty telemarketers?

Well folks, now that we all have hopefully had some time off from thinking about all the corruption in our governmental agencies, it is NOW time to get back to REALITY. Things are just as bad as they ever were. Maybe even worse.

Let's start with Cleveland County Schools and Luke Queen and his sheep on the School Board.

1.Porno rampant at Burns Middle School:

I am sure all you caring mothers of daughters and you fathers, protective of your daughters, will be glad to know a Burns Middle School female student received a porno picture of a naked man holding his penis. And the picture is being shared to other female BMS students and maybe elsewhere. The man is allegedly the BMS Principal. I say allegedly as my first

report was that the incident was at Burns High School and the man was the BHS Principal. And, that I should check into this.

Well, I have checked into it and this is what I have found:

□The incident is real, the picture actually exists and is being widely shared electronically (cell phones or computers) with other underaged girls at BMS. Note that all such sharing of porno to minors are felony crimes. Even if the person sharing is an underaged girl. So, you parents better talk to your children very quickly. And take their cell phones and computers away if you have to. Otherwise, YOU may be looking for a lawyer very soon.

□Cleveland County Schools administrators at the highest level, supported by Luke Queen and his School Board “sheep,” says the picture is NOT of the BMS Principal, that they don’t know who the man is and their investigation is over.

□Law Enforcement Investigators, under Sheriff Alan Norman, ARE continuing their serious CRIMINAL investigation FULL SPEED AHEAD and would NEVER consider such an investigation OVER until the perpetrator is identified and cuffed and stuffed. (Remember the 19-year-old Substitute Teacher at Crest Middle School who was charged with such Porno crimes just two-weeks ago. Remember the Asha Degree disappearance over 20 years ago? And all in between. The Sheriff’s Office typically takes a dim view of child porno-when they are told about it. And CCS has often tried to cover it up. And sometimes successfully have covered it up.

Stay tuned folks. This is happening right now and right under your noses. Also, if you care for your child’s welfare, get off your lazy behinds and come to the Monday, December 13, 2021 School Board meeting and demand answers directly from the School Board. Note that this particular meeting starts at 5:00PM. NOT at the 6:00PM regular time of ALL other meetings. More cover-up attempts maybe???

2. The Rogue School Board is trying to eliminate negative comments from the public during Public Participation:

School Board Chairman Luke Queen, pissed off because of the 12 public speakers at the last school board meetings who told him off during the state law required Public Participation part of the School Board meeting agenda, is trying to “ram-through” a revision to the School Board Policy to require speakers to only speak about items that Luke Queen himself allows to be put on the regular agenda. Even though Luke Queen ensures that NO advance notice to the public is given to what is going to be put on the agenda or any information about that agenda item. Basically, ensuring that EVERY member of the PUBLIC is kept in the dark about the agenda item until Luke and his sheep crowd vote to approve the item. Like a bunch of “rubber stampers.” Sources indicate that this special “Luke Queen Bruised Ego Prevention Policy” will be on the agenda for “first read” at the December 13, 2021 School Board Meeting. Remember, this meeting starts at 5:00 PM. Be sure to come early (before 5 PM) and sign up for Public Participation. Remind Luke and the rest of the School Board “sheep” that YOUR Constitutional right to free speech under the First Amendment “trumps” any old school board policy.

3. Gossip and Rumors are floating around that CCS Supt. Stephen Fisher is a secret financial “partner” with School Board Member Phillip Glover’s private “Safe Lane” Driver’s Education School.

□ School Board Member Phillip Glover’s Safe Lane Drivers Education School was registered as an LLC (Limited Liability Corporation) on March 29, 2017 with the Secretary of State of North Carolina. Phillip W. Glover is the Registering Agent. No other names have been found on record of any other person or entity associated with the ownership of Safe Lane Driving School.

□ It has been reported that Driver’s Education through Cleveland County Schools costs parents \$65 and Safe Lane charges \$395.

□ 47 of the 58 Community Colleges in North Carolina, including

Cleveland Community College, teach Driver's Education programs.

□ Since Safe Lane was chartered, three Driver's Education teachers at Cleveland County Schools have retired and were not replaced by CCS-until very recently.

□ Dunn and Bradstreet records show Safeway has seven employees and annual sales of over \$150,000. Those records did not show what year they were talking about.

□ Since early 2020, Safe Lane has been approved to teach Driver's Education remotely over ZOOM and the Safe Lane Driving School was deemed an essential business.

□ Since early 2020, when COVID hit, CCS stopped all Driver's Education programs.

□ Safe Lane's Facebook page photo shows two shiny brand-new Driver's Education cars and Glover himself can drive only one car at a time.

Taking these undisputed facts, one would easily conclude that:

□ CCS, under Superintendent Stephen Fisher, took actions (or inactions like not hiring new Driver's Ed teachers) that financially benefited School Board Member Phillip Glover's private Safeway Driving School.

□ As a School Board member, Phillip Glover would have the opportunity and position to have access to hundreds of potential Driver's Education students' names and contact information.

□ Superintendent Stephen Fisher would have known that school Board member Phillip Glover had access to these records and that Supt. Fisher would have likely provided those records to Glover himself.

□ There is a very high probability that there was an illegal financial collusion between Fisher and Glover to throw Driver's Education students toward Safe Lane Driver's School.

□ There is a very high probability that such an illegal collusion would or could have resulted in some cash or other remuneration (payoffs) between Safe Lane Drivers School and Supt. Stephen Fisher.

□At the very least, there is an unavoidable “appearance” of unethical behavior between both Superintendent Stephen Fisher and School Board member Phillip Glover that demands a THOROUGH criminal investigation by law enforcement.

□School Board Chairman Robert “Luke” Queen has not forwarded such a criminal investigation request to law enforcement, or even mentioned it to the School Board attorney as a possible “Conflict of Interest.”

□North Carolina State Law grants School Boards wide authority to conduct investigations themselves. Even to subpoena witnesses. Yet, Luke does nothing!!!

Folks, all this stuff is going on RIGHT NOW. And, there is a School Board Meeting Monday, December 13, 2021 at 5:00PM.

But that will certainly NOT be the MAIN Event at this December 13th school board meeting. THE main event will be the annual selection of the School Board Chairman and Vice-Chairman. Which will certainly be seen as a precursor to the School Board Elections of 2022 and 2024.

However, remember this. The filing for the 2022 Elections begins at noon December 6th, 2021 and ends at noon December 17th 2021. The Rogue Republicans; Dennis Bailey, Kevin Whisnant, Robert “Luke” Queen, Ron Humphries, David Allen, Wes Westmoreland and others are still trying to recruit and “brainwash” enough RINO Republican candidates to beat incumbent School Board member and announced 2022 School Board Candidate Danny Blanton in the 2022 Republican Primary Election.

Also, all the Democrat School Board members are up for re-election in 2022!! After the total Democrat “Shellacking” in Cleveland County in the 2020 elections, Democrat candidates have virtually no hope of winning seats in any local Cleveland County Election in 2022. Especially with Joe Biden in the White House and Roy Cooper in the Governor’s Mansion in Raleigh.

So, Democrats have absolutely NO CHANCE of winning any leadership position on the School Board at the December 13, 2021 School Board meeting. That is, unless they all three vote to make Danny Blanton the Chairman of the School Board (along with Danny Blanton's vote for himself and one other Republican vote). And then let the Republicans fight it out until the 2022 elections. And then hope against all hopes and odds that a Democrat Candidate can win in 2024. Even then it is low probability that a Democrat will win an election in Cleveland County. Turnouts will be too high for that to happen.

Note, that the only hope for any Democrat to win any position of leadership on the School Board at the December 13th school boardmeeting is for ALL the Democrats to vote for Danny Blanton for Chairman and then nominate Dena Green for Vice-Chairman. And hope the split between the Rogue Republicans and the Smart Republicans will throw two Republican votes to Dena Green for Vice-Chairman in the process. Because of the toxic behavior of Luke Queen, Ron Humphries and the RINO Greg Taylor; a Danny Blanton as Chairman and Dena Green as Vice Chairman combination is possible. And perhaps such a combination will completely over throw Luke Queen's "agenda for disaster" at CCS. At least until the 2022 Elections when four more sensible Republicans (including Danny Blanton) are elected to the school board. And WE will be working on that, full speed ahead.

So folks, what more can I say? Turn out Monday, December 13th, 2021 at 5:00 PM to the School Board meeting. At least 25 of you sign up to speak during the Public Participation part of the agenda. And everybody DEMAND that the School Board take action on the items noted in the first parts of this article, as well as any other issue of high public interest and concern from NOW on!!! We want LIONS for Change for the better on the school board. NOT sheep that tell lies while they do their own dirty and self-serving secret agendas. Like Luke Queen.
