

# **A Picture is worth a Thousand Words!!! The Phony Robert “Luke” Queen Protesting with Parents!!! BEFORE He got Elected to the School Board!!! BEFORE he was exposed for the Bald-Faced LIAR that he is!!! Picture and explanation by Robert A. Williams**

Robert “Luke” Queen and his RINO buddies against Danny Blanton say, “Robert A. Williams is THE “Biggest Liar in Cleveland County.” Yet, they have never offered the slightest bit of TRUTH to their claims. I send each one of them an advanced and personal copy of all my articles and they have never ever replied with a statement that anything in any of my articles were incorrect in any way. That is right Wes Westmoreland, Dennis Bailey, Robert “Luke” Queen, Ron Humphries, Rodney Fitch, Joel Shores, Greg Taylor and others. I send each of you advanced copies and I can prove it. And, YOU have never replied to me. I even sometimes say, “Folks, don’t believe a word I have said, read the proof for yourself.” None of YOU have ever said that. Or offered any proof of anything to anybody. YOU only tell lies on top of lies. And YOU make sure that Cleveland County Schools never responds completely and correctly, if at all, to my Public Records Requests that are made completely and legitimate under North Carolina and

Federal Law. Making YOU are crooks and lawbreakers too!

I have often offered \$100 rewards to anyone (but targeted for YOU) that can show and prove what I have said is wrong and have never had to pay even one red cent. Several times I have offered \$1,000 rewards and the results are always the same. Nobody has ever been able to collect.

But all right-thinking folks that read my articles already know all of this. Yet anyway. So, let's move to something related, but not something I have written about before.

There is an old saying that **"a picture is worth a thousand words."** This time I am going to show all of you folks in Cleveland County a picture of Robert "Luke" Queen taking part in a "parents" protest march back in 2020, prior to his election to the School Board. The protest march was by held right in front of the CCS Central Offices in Shelby to protest against the Cleveland County Schools School Board refusing to listen to PARENTS wanting their children graduating from CCS to be able to have a Graduation Ceremony that they had worked so hard and for so long to achieve.

This picture was a part of a "gay rights" advocate's message to another person, that was then, ultimately, sent to me. Robert "Luke" Queen is the person, face partly obscured- but clearly recognizable, in the top right corner in a blue shirt. The text message with the picture is just "gay rights" stuff. I suppose there is a message there, but It doesn't make any sense to me.

But the picture tells the tale on Robert "Luke" Queen has joined in a protest of a school board decision against parents' requests to CCS and Luke Queen wants those parents to vote for him for the school board. Now that Luke Queen is on the school board, as Chairman even, Luke Queen doesn't give a "rat's ass" for parents, OR their children. Luke and his sheep have passed and approved a **policy** that totally EXCLUDES

parents from having a say to the school board and Luke will have parents thrown out of the meeting and **prosecuted** for disrupting his meeting if they even try to say something Luke does not like. This Policy 2310 came into effect at the December 13, 2021 School Board meeting to disastrous effect to Luke Queen's oversized ego. More about that in another article.

Stay tuned!!!

Scroll on down to the Picture, Enlarge if necessary. That is Luke Queen at the far right side of the pic.

H/t to **Dale Guffey** for this perfect encapsulation of white privilege. This is at a protest because parents are mad their kids can't March at graduation because of COVID-19. Contrast this with the video of George Floyd begging for his life and calling out to his mama as the life was drained from his body by a murdering cop and remember that she is crying out because she has been mildly inconvenienced and suffered a bummer.
