

The “Sex-Plot “Sickens” at Crest High School– Mow a Male History Teacher resigns amidst the sex scandal!!! Nothing but an official SILENCE (cover-up) coming from CCS!!! Report, source reports, conclusions and recommendations by Robert A. Williams

Only one thing is certain at Cleveland County Schools. School Board members Robert “Luke” Queen, Rodney Fritch, Joel Shores, Ron Humphries, and Greg Taylor LIED TO THE PEOPLE of Cleveland County when they all stated during their election campaign that they would be TRANSPARE#NT (meaning they would tell the truth to the citizens) if they were elected to the Cleveland County School Board. Their lying started the moment they took the Oath of office!!! And has continued without interruption ever since. Supt. Dr. Stephen Fisher is right in there too. They ALL refuse to be transparent!!!

This particular incident began exactly one week ago when a Crest High School female teacher flashed a nude picture of a naked man’s private parts to a room full of students on the CCS-owned electronic virtual learning devices. The students told their parents and the parents have been raising Hell ever since.

At first, the story coming out from CCS was that the teacher had been forced to resign. A tactic called "Pass the Trash." Then, according to reports, Crest High School Principal Jeremy Shields told that the female teacher had only been suspended for two days and would be back at school on Monday. Then, somewhere along the way, Principal Shields said that the incident never happened. Then, on Monday, the teacher did NOT show up for school and a substitute teacher taught the class. Same for Tuesday.

Tuesday night I get a report that the teacher had indeed resigned and this incident and scandal was not the first, (or second or maybe third) time this female teacher had been caught doing similar such stuff at other school districts before coming to Cleveland County Schools. Now, it is Wednesday morning, March 9, 2022, and I receive information that a MALE teacher at Crest High School suddenly resigned Monday or Tuesday. Way too close to be a coincidence. And everything "official" coming out of Cleveland County Schools is SILENCE.

I have to wonder, is this male teacher suddenly resigning somehow related to the female teacher's having a nudie picture of a naked man on school equipment. And again, I must say; everything "official" coming out of Cleveland County Schools is SILENCE.

To me, Silence is always a bad sign coming out of Cleveland County Schools. In all my experience attending School Board Meetings these past ten years or so, I have typically learned that silence was always associated with covering up corruption or wrongdoing of one sort or another. Statistically, this would indicate that this silence that is now coming out of CCS means exactly the same thing. **This latest round of silence from CCS is a cover-up too.**

I am way past letting CCS cast all the blame on the lower-level employees. Too many incidents and way too often. I cast

by blame on such continuing incidents of corruption and wrongdoing at the highest levels. The Superintendent and the School Board. They are always too little and too late. As well as too silent in addressing problems. Too quick to go directly to a cover-up mode. And they never admit to their mistakes or take corrective actions to prevent future occurrences. All you ever get out of CCS is how good they are. How well students are doing and how happy everybody is. They NEVER tell you that they ALWAYS retaliate against whistleblowers or anybody else that complains about anything—Small or large.

Now folks, perhaps somehow some rubber is about to hit the road. The next School Board meeting is this coming Monday. March 14, 2022. And, guess what is supposed to be on the agenda? The School Board is supposed to give Superintendent Dr. Fisher a performance review. My prediction is the Rogue Republicans and perhaps others will give Fisher a “stellar” review. My prediction is that a phony high review of Dr. Fisher’s performance will NOT be unanimous!!! It certainly is NOT for me and others that are interested in correcting CCS’s poor performance and too many scandals and cover-ups.

Stay tuned folks. And I hope to see you at the School Board Meeting Monday night.
