

Big Lawsuit Against City of Shelby just got BIGGER!!! City of Shelby could have settled in Small Claims Court. Now could lose MILLION\$\$\$ "I told YOU so" report by Robert A. Williams

Folks, over the past couple of years I have written article after article about the legal trouble the City of Shelby has brought down upon themselves for their discrimination and good-ole-boy retaliation against Mr. Willie Green and his company Five Star Athlete Development Company, LLC. First, they refused to do business with Mr. Green when he made his proposals to build a much-needed Sports Complex on Earl Road. A Sports Complex that the City of Shelby themselves called for in their 10-Year Master Plan from which Mr. Green had crafted his proposal around. To provide the City of Shelby with exactly what they had said they wanted. A Sports Complex developed as a Private-Public Partnership.

The only thing was, the City of Shelby wanted one of their Good-Ole-Boy WHITE friends to come up with a deal and Mr. Green, a former NFL Football Player with 2 Superbowl Rings, was African-American. In other words-BLACK. And the Good-Ole-Boys didn't want to cut a N***** in on their business dealings. And, they didn't. And were obvious about it.

They hemmed and they hawed. They lied and they defamed. They discriminated and laughed about it. They even told their lies and showed their asses in articles in the Shelby Star.

When Mr. Green filed lawsuits in Small Claims Court, they lied and cheated. When Mr. Green raised the stakes to District and Superior Court, they lied and cheated some more. They also got others to lie and cheat. They called Mr. Green a Muslim Terrorist. They said he was broke. They said all Mr. Green wanted to do was bring a thousand niggers into Shelby.

When Mr. Green wanted a Zoning Change on property on E. Dixon Boulevard to build Townhomes, totally unconnected with the Sports Complex, they discriminated and retaliated again. Just because they could and just because they considered Mr. Green an Uppity N***** who needs to learn his place and learn his lesson.

All the while during all this, Small Claims lawsuits were filed and the Magistrate Judge said they were too complicated. When Mr. Green raised them to District and Superior Court, the local Good-Ole-Boy Judges dismissed them on phony rulings. None of the Good-Ole-Boys, the Good-Ole-Boy Judges, and the Good-Ole-Boy co-conspirators understood that the "Noose" they were trying to tie around Mr. Green's neck was going to be tied around their own necks.

It went like this. In one legal action, Mr. Green would file, the defendants would tell one set of lies. When Mr. Green filed other legal actions, the defendants told another set of lies. Sets of lies that contradicted one another. And it went on and on. Perjury here and perjury there. And the City of Shelby officials and others just kept on and on. Laughing and lying and lying and laughing.

Finally, Mr. Green studied the situation closely, did nothing regarding filing legal actions for a period of time. The majority of my articles moved on to other corruption. Shelby and Cleveland County have plenty of corruption to write about. Even when Mr. Green filed his last "Killer" Federal Lawsuit, I decided it was time for me to lay off this story for a while/ The City of Shelby and others had not learned their lesson and

never would was my conclusion. There was no need for me to waste my time urging these fools to do quit their sinning ways and do right. I was just going to wait and see what was going to happen.

And, the explosion and the Richter Scale 10.0 earthquake hit yesterday. March 24, 2022. Mr. Green had quietly hired another lawyer to assist on this case against the City of Shelby. Not another attorney to help with the minutia of a Federal Lawsuit. But a hard-hitting trial attorney who has already won MILLION\$\$\$ upon MILLION\$\$\$ for her clients. An attorney with 20 full years of experience as a Federal Department of Justice Attorney. But...wait a minute. Let me stop with MY words right now and use the very own words of this new attorney signing on to Mr. Green's case and a little history from that lawyer's professional bio.

The Attorney's Name is Deana Timberlake-Wiley. Her professional description says:

Ms. Wiley represents targets and witnesses in cases involving fraud, conspiracy, public corruption, healthcare fraud, antitrust, embezzlement and obstruction of justice. "Ms. Wiley is an award-winning trial attorney with more than 20 years of experience investigating and litigating complex white-collar criminal cases in federal courts throughout the United States. Ms. Wiley served as a federal prosecutor with the United States Department of Justice for 20 years. She has won numerous jury trials and has obtained millions of dollars in fines and restitution. She has significant experience with complex cases, both as a defense attorney and as a federal prosecutor with the Antitrust Division of the United States Department of Justice. She also served as a Special Assistant United States Attorney in the Eastern District of Virginia where she handled embezzlement cases, bank fraud cases, drug conspiracy cases, and other criminal matters."

Federal Court records in Asheville show an official "Motion

FOR Admission” for Ms. Wiley to JOIN Mr. Green’s case was filed on March 24, 2022.

I suspect the City of Shelby leaders and certain others are “pooping” in their pants as this article is being written and published. Dumb asses!!! “I told you so” way too many times to care how many MILLION\$\$\$ this lawsuit takes out of YOUR hides. And Mr. Green and his lawyers are laughing all the way to the bank.
