Public's Opinion on: Has the Shelby Star been Bought Off??? Public Opinion provided by Robert A. Williams

A reader sent in this short response on my recent article asking this question: Has the Shelby Star been Bought-off??

The response is as follows:

> ***Everyone KNOWS the Shelby Star is a rag, not worth the paper it's written on. And yes, through the "Legals" using OUR Tax dollars – does, in fact, BUY the lies for the City. Boomerang Architectural company SHOULD be criminally investigated, along with the School District, College and others USING it to avoid Legal Bidding, effectively Bribing many to do their bidding. AND Violating the Property, Constitutional Rights, like in the case of Willie Green.***
>
> *Almost as bad as a "President" who doesn't know where he is and isn't in charge of even his bowels. (pooped his pants, while with the Pope.*
>
> *Those who refuse to learn from History, let others Repeat It! GO BRANDON!*

Editor's Note: A response from the Shelby Star, now located in Gastonia, is offered the opportunity to the Star to explain themselves. We will certainly publish their reply. Along with any Fact-Checking we believe to be necessary.

Also, we fact-checked the original response regarding Joe Biden pooping his pants during his meeting with the Pope in

Rome, Italy. What we found is that many Italians claim this to be true and the US Fake News is mostly silent. Which is very often proof positive that the allegations are true.

We Googled “Did Joe Biden poop his pants in Rome?” There were many hits, so this question is surely going around and may very well be 100% true. Plus, the fact that:
Joe Biden is almost 80 years old.
At that age, bladder and bowel control are often compromised.
Fake News Media in the USA, like the Shelby Star, are well known for “silencing” negative, but true, reports about the Bidens.

Also, Part 2. Many folks agree that the Shelby Star is indeed a “rag” not worth the paper it is printed on. Myself included. That is surely the reason the subscriptions for the Shelby Star have dropped to almost nothing, forcing the Star to move to Gastonia. Printing and reporting especially. Many, including myself, believe that the Star does NOT report on what their reporters have investigated themselves. That they just take press releases from CCS, the Commissioners, etc. and make articles out of them without “Asking the right questions” that are necessary to get to the truth of the matter. I believe that is exactly what Mr. Willie Green has challenged the Shelby Star to do. Interview Shelby City Officials and “ask the right questions” to get to the truth. No response from the Shelby Star on that challenge. I suspect there will not be a response from the Shelby Star on that challenge. That is usually the Fake News response to such challenges. To make no response at all.

Oh well, Shelby Star. Print what you want. Nobody believes you anyway!!!
