

A Good Citizen Speaks Out—Wake Up Cleveland County and MORE!!! Thanks me for calling a spade a spade!!! Personal Message forwarded by Robert A. Williams

Folks: when you get a message like this, you shut up and pass the message along as is. Wake up Cleveland County!! Note, I changed the name so the person who sent this message won't have a target on their back too!

Thank you, Robert.

You're right, these are very corrupt, evil people we're dealing with in public office. Not to mention it can become dangerous trying to expose them. You have a large platform that reaches a lot of people. The biggest problem we have is getting people to care. Care enough to show up at school board meetings, commissioner meetings, etc. Most people won't care until it touches THEIR family in some way.

Another is trying to break through the mental barrier that people have where they just "can't believe local people or our government would deliberately harm us"! That barrier has to be broken through somehow. I think when the average person in Cleveland County reads your articles, they think "This cannot possibly be true" or "These people cannot be THAT bad".

If they only knew... it's actually WORSE than you say! Satan has always been about destroying God's most precious creation... Humanity.

What makes people think he's changed his tactics now? I have learned that most people in elected office become compromised at some point. And the longer they are in those positions the more compromised they become. A lot are blackmailed over something and they can't see a way out of it. And many are willing to sell their Soul to Satan in exchange for Power, Money and Sex. I'm grateful that Cleveland County has someone like you who calls a spade a spade.

However, that puts a target on your back. And we are not wrestling against flesh and blood. This is ultimately a Spiritual Battle we are fighting... Wickedness and Evil in high places.

I appreciate all that you do trying to wake this county up.

I will also keep you in my prayers for support, encouragement and safety.

A Good Citizen
