ANOTHER good Citizen Speaks Out—First Speaker is Telling the Truth!! Message forwarded by Robert A. Williams

> *Mr. Williams,*
> *That (first) good citizen was speaking the truth! If not for you we wouldn't know just how evil Cleveland County is.*
> *Please keep up the good work and keep spreading truth. Maybe someday people will start to wake up and see just how evil the people in this county can be.*
> *I pray as well that you stay safe and I'm very happy that I had the opportunity to meet you.*

Editor's Note: Thank you ALL for your support, encouragement and prayers. It is an election year and I do intend to keep up the good work. Now and into the future.

If any citizen has good information regarding corruption, waste, fraud or other bad acts by Cleveland County Officials: Commissioners and County Employees, School Board and CCS School Administration and employees, Cleveland Community College Board of Trustees and employees, The District Attorney's Office, Shelby officials, Law Enforcement, etc., please let me know. I will keep your identity secret from those that would retaliate against you.

Shining the light on corruption and exposing that corruption to the good citizens of Cleveland County is the only effective way to make Cleveland County into the place that we would want it to be. And, I have to believe, there are more of US than of THEM.
