

Bernice Speaks: Robert Queen is over the line of ethical behavior!!! Queen Disrespects those that put him in Office!! Especially Danny Blanton, who is just trying to do the right thing! Message forwarded by Robert A. Williams

Folks, we have another person who wants to speak out with the truth about the corruption in Cleveland County. I have pen-named "her" Bernice, which means "**Victory Bringer**" in Greek. Many may figure out who this person is by what she" says. But on this website, she is Bernice.

Bernice writes:

Robert Queen, Cleveland County School Board Chairman...

I have stood in front of you and the rest of your school board members and I HAD TO STOP TALKING at the March meeting, WITHIN MY 3 MIN SPEECH, TO HEAR YOU SAY TO ROBERT WILLIAMS AND RONNIE GRIGG "I'LL THROW YOU OUT!" ...

FOLKS, THIS WAS THE 2ND TIME HE HAS SAID THIS TO ROBERT WILLIAMS.

ROBERT QUEEN, I KNOW YOU SHOW FAVORITISM TOWARDS YOUR 'CLICK' PEOPLE, BUT YOUR PUBLIC DISPLAY, ON VIDEO, SHOUTING TOWARDS PEOPLE WHO VOTED TO PUT YOU IN YOUR SEAT AND YOUR TOTAL AND

COMPLETE DISRESPECT TOWARDS THEM AND OTHERS ONLY SHOWS YOU ARE OUT OF CONTROL..

NO DOUBT YOU HAVE CROSSED THE LINE OF ETHICAL BEHAVIOR...YOU DO NOT CARE ABOUT "HOW YOUR BEHAVIOR" LOOKS AND SOUNDS, BUT THE TAXPAYING CITIZENS AND PARENTS CARE... AND WE DON'T LIKE WHAT WE ARE SEEING AND HEARING.

Bernice

Editor's Note: I attended the March 25, 2022 School Board "Work Session" that was anything but a Work Session. But that is another story. At this unrecorded Work Session, Danny Blanton suggested that the School Board put the Auditorium Construction at Burns and Crest High Schools out for bid again as material prices, gas prices and labor availability appear to be better now than when the Auditorium Construction was originally put out for bid. (But had to be declined because the bid prices were higher than the funds available.)

Robert "Luke" butted in on Blanton with a condescending, hateful and mean tone saying the prices of steel, concrete and other materials are just as high now as they were then. Something that was impossible for Luke Queen to know without rebidding the project. I have no proof of anything, but my immediate thought about NOT rebidding the project from peak high prices would certainly be a good way to protect your kickbacks.
