School Board Approves $28 Million for Auditoriums At Burns and Crest High Schools Improper designs NOT Mentioned or Discussed!!! Report, conclusions and predictions provided by Robert A.

The Cleveland County School Board scheduled a Special Called Meeting Wednesday, May 11, 2022, for the purpose of discussing the Auditorium Projects at Burns and Crest High Schools. As Robert A. stated in a previous article, it was very entertaining and he ended up laughing out loud at the continued foolishness and incompetence of Chairman Luke Queen and Parliamentarian Ron Humphries. Badly wounding Chairman Robert “Luke” Queen’s oversized ego to no end. (Humphries too.)

So, what does Luke Queen do? “Snub-lican” Luke Queen doubles down on his political attacks on fellow Republican School Board Candidates. Doubles down on incumbent candidate for re-election-Danny Blanton; whose mistaken vote made Luke the School Board Chairman in the first place by a 5-4 Vote over Democrat Phillip Glover. And Luke and his Snub-licans also doubled down on Candidates Ronnie Grigg and Annette Fain. Ronnie Grigg being one of the original Snub-lican recruits told the Snub-licans to “Go to Hell” as soon as Grigg found out what the Snub-licans were up to. Luke and his wrecking ball crews also doubled down on School Board Candidate Annette

Fain as Fain also refused to kiss the asses of the dis-functional Snub-licans who would rather have a Democrat in office than a Republican who won't kiss their asses. It goes on and on.

But, instead of realizing they are going the wrong way on a one-way street, and turning around, Fool, Luke Queen, and his Snub-lican buddies have speeded up, right before election day. Like Snub-lican, Rogue Republican and political suicide self-declared victim Wes Westmoreland going on Political Smackdown with his Snub-lican "sneaky" vitriol. Robert A. believes Westmoreland will be ONE of the very first Snub-lican casualty in about two to three weeks when the Cleveland County Commissioners refuse to re-appoint Westmoreland to the Cleveland Community College Board of Trustees. Anecdotal proof of that is Westmoreland already going around telling the public that he doesn't want to serve another term as a CCC BoT.

Like Robert Queen did last year, only to have Snub-licans Westmoreland, Dennis Bailey, and others "bumfuzzle" nitwit NC Senator Ted Alexander and Speaker of the House Tim Moore into re-appointing Luke Queen as a General Assembly appointment.

All in all, says Robert A., Luke Queen has this "King Midas Touch," only in reverse. Everything King Midas touched, turned into GOLD. Everything Luke Queen touches turns into feces.

A good example of that happened this past Wednesday during the Special Called School Board meeting regarding the auditoriums at Burns and Crest High Schools. After Superintendent Fisher, in his fast-talking mode, told the School Board that additional grant money had been found and CCS now had the dollars to start construction, Chairman Luke asked if there were any questions, Danny Blanton had a question, Luke's main snub, Ron Humphries ruled that Blanton was out of order. Which brought a response from Blanton. Luke had to rule in Blanton's favor as Blanton was correct in his objection. Then, at the

very moment, the very split second, the Blanton Q&A completed, Democrat candidate for School Board re-election Phillip Glover made the Motion to approve the construction of the Auditoriums at Burns and Crest. It passed 9-0.

Robert Queen was defeated by his own greed for power. A Democrat in a Board of Rogue Republican Snub-licans and a RINO had just laid claim to being the school board member who approved construction of the auditoriums at Burns and Crest High Schools. Glover had outwitted and outfoxed the Snub-licans-all at the same time.

But, what about the actual design of the auditoriums? How many seats? What are the auditorium amenities? Will the auditorium support plays, theater, and musical concerts? Will the Auditorium even be big enough to support graduation? Not one word of ANY of this was discussed, contemplated or even mentioned.

The fact is the CCS School Board has just bought a pig in a poke. Luke Queen has been damned and determined to NOT let Robert A. see the plans and documents related to these auditoriums. Even though Robert A. has asked for them and they are public records.

> *Robert A. has a prediction:*
> *"Based on my knowledge, experience and observation skills as an Engineer, I have plenty of reason to believe there is a 90% probability that these new auditoriums at Burns and Crest will NOT perform at a satisfactory level for their intended purposes. I believe that the $28 million will eventually be considered money wasted by people that refused to listen to people that had Students and taxpayers and the community's best interest at heart. But I have said enough. I will make a note of mu reservations about these projects, put them into a sealed envelope and mail them to myself. Thus, having a time stamped record of my statements*

> *Call me in about two years and I will open that envelope and make the contents known to the public.*

In the meantime, Robert A. recommends all Registered Republicans and Unaffiliated voters to mark their 2022 Republican Primary Election ballots to show a vote as shown below:

CCS School Board:
☐Danny Blanton
☐Ronnie Grigg
☐Annette Fain

Commissioners:
☐Deb Hardin
☐Doug Bridges

US Congress:
☐Jeff Gregory

US Senate:
☐Ted Budd
