Rogue Republican, Snub-licans, Get Asses Kicked in 2022 Republican Primary Elections!!! Shock waves hit all the way to Raleigh, maybe beyond!!! Trump hater dumped from Cleveland Community College BoTs!!! Revenge of the "Pee-ons" Complete on Election Day!!! Snub-lican "leadership" in hiding!!! Afraid they will get pee'd on!!! Eye witness reporting and commentary by Robert A.

The scheming, dirty tricks, lies and deceptions by the Rogue Republican "Snub-licans" was unrelenting from way back before the "Fixed" WeRCC (Women Republicans of Cleveland County) and the TEA-Party candidates forums. Way back to over a year ago, when Dennis Bailey, Kevin Whisnant, Robert Queen, Wes Westmoreland, Senator Ted Alexander, Ronnie Whetstine and others made the Cleveland County Commissioners look like a band of fools when the Commissioners refused to re-appoint Robert "Luke" Queen back onto the CCC Board of Trustees. The Snub-licans cajoled Senator Ted Alexander to reappointing Luke

Queen back onto the CCC BoTs. And when they were successful at that, the “Snubs” moved onto the idea of getting rid of School Board member Danny Blanton off the School Board by recruiting four School Board Republican candidates to run and beat Danny Blanton during the 2022 Republican Party primary Election. And then also get rid of Commissioners Doug Bridges and Deb Hardin also.

Dennis Bailey, Robert Queen, Kevin Whisnant, Guy Smith, Ron Humphries, David Allen and others let that first success go to their heads. They thought they were invincible. Dennis Bailey was reported to have said that he was the Election winner “God” that got Tim Moore elected and other Republicans too. “You have to go through ME to get elected,” Dennis Bailey was said to have said. And Bailey’s big bud, Luke Queen, wanting to get rid of Danny Blanton for doing the job the Pee-ons like You, ME and thousands of others wanted Blanton to do as a school board member.

All these “Snubs” then schemed, planned and conspired with the Shelby Daily Liar and others to get rid of Danny Blanton. Luke Queen wrote a phony letter and maneuvered it into the hands of the Shelby Dailey Liar. Luke distributed illegal campaign material. Luke paid for a Robo-Call network to send out multiple Robo-Calls recommending HIS four candidates as necessary to beat Danny Blanton. More illegal documents, more unethical Robo-calls, Right up to and through election day.

But, us “Pee-ons” smelled a rat. We saw through Luke Queen and his pal’s dirty business and turned out on the 2022 Republican Primary Election Day. WE made Danny Blanton the TOP vote getter and Ronnie Grigg a winner too. Doug Bridges and Deb Hardin also won as County Commissioners.

The shenanigans by the Rogue Republican Snub-licans has smashed the Cleveland County Republican Party to bits. Complaints to State Republican officials were ignored. Gotten Wes Westmoreland thrown off the CCC BoT and around 100

Republicans (with more expected) have changed their Party affiliation to Unaffiliated.

And where were these Snubs on Election day NIGHT when the ballots were counted. They were nowhere to be found. Allegedly out drinking in an uptown Shelby Bar. Drowning in their sorrow, I reckon, says Robert A.

But tomorrow, besides the hangover headache the Snubs may be experiencing, there will be Hell to pay over all the dirty dog-shit uproar the Snubs brought down on their own heads, what are they to do? These folks are not like the noble Romans who threw themselves on their swords when they failed. The folks will hide long enough to think everything has blown over. I say, not NO, but HELL NO!!! These SOB's should not even be allowed to resign. They should officially be run out of anything and everything affiliated with the Republican Party. And the Rogue Republican "Snubs" on the School Board should be run off from the School Board and the Community College and wherever else these Rats have left their droppings.

Justice must be done and the snubs must be gone before the sun sets tomorrow. Amen, right? RIGHT!!!

Stay tuned folks. More is coming soon.
