Ariel Speaks: Timely thoughts about Timely Matters-And More to come!! Welcome Back Ariel. You HAVE been Missed!!! Commissioners and CCS School Board, We the People want answers!!! Message forwarded by Robert A

Hi Robert A,
Sorry to have been away for a while but I had a couple of issues to resolve. Not to mention so much is happening all around the world right now.

I have several topics I would like to inform your readers of, but I'll try to break it up into a few different posts so it's not so overwhelming.

Because as you know, the world IS overwhelming right now to so many of us that see through the BS. Over the last few weeks, many articles pertaining to the Public School System have been published. I'll attach these articles I'm referencing as well.

The first article on my list is from The Federalist – "K-12 Schools Must Now Put Boys in Girl's Privvies To Get Federal Lunch Money". Which means they must allow males who claim to be female to access female private spaces such as bathrooms, showers and sleeping areas. Yes, you read that correctly. The Biden administration is forcing school systems into this otherwise they will withhold Federal monies from the School Lunch program!

I am not going into the details because parents, grandparents and all who are raising children need to read the articles and digest the information for themselves. This means boys WILL BE using the girls' bathrooms. This seemed to be a major topic of discussion during the School Board primary election.

Now, current School Board members, just where do you really stand on this issue? Are you going to allow this perversion just so Cleveland County Schools can accept the Federal Lunch Money allocations or are you going to stand up, stand together and stand strong to stop this insanity? It may cost Cleveland County Schools federal lunch money but the price to allow this evil policy to go forward is immeasurable. The Public needs and deserves an answer here.

The second article I will touch on is The KIPP network of 270 public charter schools that is pushing vehemently racist Critical Race Theory and LGBTQ lessons for children as young as 5 years of age. Transgender indoctrination for Kindergartners!

Make no mistakes folks. This is being pushed from the Top down at every level in every School District all over America. The Federal, the State and yes, the Local. And IF they want to keep their jobs, board seats or other positions they have to do as they are told or Federal AND State funding will be cut. Follow the money. ALWAYS follow the money!

I'm attaching a 3rd article from James Dobson for parents under fire from "perverted" schools.

Our children are being sacrificed on the altar of tolerance through the Transgender Cult. The perversion that has been on display at The Cleveland County Library should be disgusting enough that all decent and right-thinking people should be outraged that our children are being exposed to this filth.

WAKE UP Parents, Grandparents and all others that are raising children to what is happening right under our noses. CRT is

already here in CCS. They just rename it Social Emotional Learning and other vague terms to confuse you and keep you in the dark about their sinister agenda.

PLEASE, please get off your butts and get off Facebook. Get involved to help stop this evil from progressing. You will never hear the truth from the National or Local news on the Television. Nor can the truth come out on Facebook because they won't allow it. Stop posting what you had for dinner or pics of children and grandchildren. This does nothing to improve our world or help children. Get off the sofa and make a difference in your children's lives. Research, go to school board meetings, go to Commissioners meetings, go to your child's school and start helping to expose these hidden agendas to harm our precious children. There are other social media sites that you can get the truth from. TruthSocial, GETTR, GAB, Telegram, AnonUp and others. Start researching other news sites like Gateway Pundit, The Federalist, Breitbart, WND, Epoch Times, Washington Examiner, Conservative Treehouse and many others! We are in psychological warfare and it's time to decide which side of the fence you are on. Good or Evil.

Who cares that the leftists are upset with the SCOTUS? These lunatics want to groom your kids in public schools and have drag queens read books to them in public libraries. They want to cheat in every public election to stay in power, and force you to apologize for being a racist to keep your job. Stop pretending you can negotiate with cultural terrorists.

Institutional power is firmly on the side of the Pedophiles and Perverts. Good, decent, Christian Americans need to respond accordingly. Because "We The People Have Had Enough!"
