

Rogue Republican Kevin Whisnant caught up in another Rogue Republican's Property Tax Gestapo-like trespass!!! Report and condemnation by Robert A

Folks, **Robert A** will say right now and clear as a bell. I do NOT like the way Rogue Republican Kevin Whisnant (and others) have played dirty political tricks on Dr. Danny Blanton and Dr. Ronnie Grigg in the 2022 Republican School Board Elections as well as the 2022 General Elections. Kevin Whisnant, in **Robert A's** estimation has played dirty political pool of the worst kind. Kevin Whisnant has schemed and he has lied to the citizens of Cleveland County. He has helped tear the Cleveland County GOP into little-bitty pieces.

However, and this is a very, very big HOWEVER; Kevin Whisnant is an American Citizen and a human being, no matter how bad some of his actions have been of late. Kevin Whisnant has a wife and Kevin Whisnant has a family. Kevin Whisnant has worked for what he has and to support his family. And, as an American Citizen under the Constitution of the United States of America, Kevin Whisnant has basic civil rights that every American everywhere has a duty to respect. Kevin Whisnant and ALL Americans living in America have the basic right to be secure in his home and on his property. Secure under the law and especially secure from all despotic government agents and agencies. And Every American, including **Robert A** and every other American has the duty to ensure that Kevin Whisnant and

his family are indeed secure in his home and on his property. Just like Kevin Whisnant has the duty to ensure that his neighbors in America are also secure in their home and on their property. This is the basis of all laws in the USA and EVERYBODY is bound to support that truly American concept. No matter who the person violated is or how much he schemes and lies.

Now, this story is all over Facebook and talked about all over Cleveland County. Commissioner Chairman Kevin "Mad Dog" Gordon, assisted by County Manager Brian Epley, and allowed by the other four County Commissioners, have organized a Property Tax "Gestapo" Organization to go out "Un-announced" to TRESPASS on people's homes and properties in Cleveland County to spy on the people and violate the sanctity of their homes and property. It is said that 500 homes and properties have been selected to be violated thus far.

Now, for the Kevin Whisnant incident.

How Kevin Whisnant's home and property were selected by Commissioner Chairman Kevin Gordon to be so violated is unknown at present. All we know for sure is this is what happened.

On day this past week, Kevin Whisnant and family members were all off to work or otherwise not at home. Kevin Gordon's Tax Gestapo agents arrived as directed by Gordon at Whisnant's home and began doing all the things that Kevin Gordon and Brian Epley directed them to do. In the process, Kevin Whisnant's silent alarm went off and Kevin Whisnant received

the alarm notice. Whisnant Immediately called the Sheriff's Department and Deputies were dispatched to the Whisnant home and property. The Deputies soon observed Kevin Gordon's trespassers and somehow blocked their escape.

This is where Robert A information is fuzzy. Robert A is not sure whether or not the Deputies drew their weapons or what. Although it had to have been a tense situation at first. It is unclear what was said and done. It is certain Gordon's Gestapo were not arrested and Kevin Whisnant is mad as Hell. As I would be.

What information that has come out to Robert A is this. There are 500 properties selected for such trespassing. Kevin Whisnant is the only homeowner, known so far, that has caught Gordon's Gestapo in action. Perhaps, and most likely, Gordon has made sure that Robert A (and you readers) are also on this list of targeted trespassing. Perhaps me and you have already had our homes and properties violated and just don't know it yet. And, who can believe anything that Commissioner Chairman Mad Dog Gordon says. He has already been caught in so many lies and foul schemes.

And, why these 500 victims? There are plenty more homes in Cleveland County than that. The only plausible explanation is Kevin Gordon and Brian Epley are afraid that the nationwide inflation is dropping home values so fast that a normal revaluation time frame would take longer and the home values in Cleveland County would drop so significantly that the reappraisal would actually end up lowering property taxes. Wouldn't that be a Hoot. But Gordon and Epley would certainly not allow that. Especially when the PUBLIC votes down Gordon's sales tax increase referendum!!!

No matter what has happened here before, during and after Kevin Whisnant having his basic civil rights violated. Whatever happens to Kevin Whisnant will sooner or later befall every property owner in Cleveland County. All because of the stupidity and greed of Commissioner Chairman Kevin Gordon, Brian Epley and the other four sheepish commissioners. Johnny Hutchins, Ronnie Whetstine, Doug Bridges and Deb Hardin.

Folks, apparently this is still a developing story. Robert A will let YOU know as soon as HE finds out anything more to this sad and sorry story.

Also, it might be time to investigate who in the CCGOP so-called Executive Board ended up appointing Mad Dog Gordon to the Commissioner Candidate's position over those that actually filed and ran in the 2020 Commissioner's Primary Elections. Those names would be interesting. Robert A would be glad to ask those nitwits why they did such a foolish thing as that?
