Massive Data Dump on Kings Mountain Casino Coming ASAP!! Eddie Holbrook, David Dear, Commissioners and Others!! Start to finish Data and information provided by Robert A and others!!

Over the years Robert A and others have accumulated much information and data involving the Kings Mountain Casino, Eddie Holbrook, David Dear, the other Cleveland County Commissioners involved, County Managers, their financial partners, friends and associates, extremely large campaign contributions, and other financial irregularities that deviated from sound business practices as well as North Carolina and Federal law. Things like the American Legion World Series Baseball, Inc, the secret sale of the Cleveland County Healthcare (Hospital) system for pennies on the dollar of its actual worth, The Cleveland County (so-called) Economic Development Partnership. The LeGrand Center operations. The Earl Scruggs Center. And last but not least, the Foothills Shooting Range.

Then, we will put out the seemingly scandalous shenanigans regarding the Shelby Thread Trail, Rail Trail and other real estate shenanigans. The old Shelby Farmer's Market maybe.

Some of the information has already been "mined" by other

media outlets and published by THEM. That is good. The word needs to be gotten out as wide-spread as possible. So wide-spread that NOTHING can be covered-up any longer. Therefore, we give full permission to any news organization, persons and entities (Including the Federal Bureau of Investigation (FBI), the State Bureau of Investigation (SBI), The Cleveland County Sheriff and District Attorney too) that cares to use the information, records and data that we have found that will help expose and possibly prosecute those that for so many years of improper and likely illegal actions have cheated Cleveland County out of so many opportunities and so much taxpayers hard earned treasure. Cleveland County Citizens and taxpayers are tired of being so poorly represented and betrayed so often and for so long. And treated so poorly in the process.

This data and information is being gathered up as we speak. And will soon be ready for all to see. It is somewhat hard to say this, but most of this data and information has been previously published and the tainted officials have just lied out of it. That folks, is on YOU and ME. ME for not speaking up loud enough and YOU for not listening good enough to hear and understand. Perhaps this time around YOU, ME and all of US will be more receptive to the truth and less receptive to lies from those who have been elected or appointed to positions of Trust in Cleveland County and elsewhere. This time around, perhaps WE ALL will be paying better attention to what is going on around US!!!

Robert A believes all this corruption will not stop until someone is led off to prison in handcuffs. And become occupants in this new $250 Million$ Jail and “Justice Center” Wouldn’t it be déjà vu if David Dear, Eddie Holbrook and a few others become the new jail’s first occupants. That would

indeed be a sight to see.
