

News Flash: by Sandra Stroud Bullies and Thugs Abound at Cleveland County Schools!! Lots of Juvenile Terrorists- No Adult Leadership in sight!! Warning and Opinions forwarded by Robert A

Listen up all you parents who have a child in ANY Cleveland County

School who is being tormented by a bully or attacked by thugs.

Get Serious about the safety of your child!! We have a Superintendent and a school board who doesn't seem to be interested in the seriousness of bullying and fighting on our schools. They seem to be oblivious to the thuggish behavior.

Thugs and juvenile terrorists are running the schools. I wonder where are the principals and teachers when the fights break out? Why are there never any arrests? Putting hands on another in a threatening way is criminal.

This kind of cruelty will continue until a student is killed or dies from the when the injuries or when the student commits suicide. That is when the Superintendent and the School Board will become concerned.

Public schools are not the place for bullies and thugs. THEY need to be in boot camp!! Parents, become involved!! Protect your children!! Don't wait for a tragedy to happen!
