

The STATE of the COUNTY By Sandra Stroud Forwarded by Robert A

Our School Board is a flock of wandering dumb sheep being led to their demise by a biblical genius. The County Jail Annex has become a "romance zone." Then, there is the ever so popular Pickleball Courts that are a little "Peyton Place!" Love is in the air! The County Commissioners are holding on "As the World Turns!" The Schools are run by thugs and juvenile terrorists while the adult supervision enjoys "Days of our Lives!"

The State of our County is strong, folks!

Sandra Stroud

Editor's Note: Sandra Stroud is a fearless Champion of right and proper government in Cleveland County and the US. When Prayer at the beginning of School Board Meetings was the issue, Sandra Stroud stood up and voiced her strong support in front of 600+ citizens. When Shelby Schools refused to teach a deaf child, Sandra Stroud single-handedly made Shelby Schools mend their ways. When the Cleveland County Commissioners surrendered to a Federal Lawsuit by agreeing to a settlement that was Un-Constitutional; Sandra Stroud put her name and money behind a Federal Lawsuit and took the Cleveland County Commissioners to the US Federal Courts in Washington, DC and made the Commissioners mend their cowardly ways. When Sandra Stroud sends me her messages, I publish them. Word for Word. Sometimes satire as well.

WAKE UP Cleveland County. It is YOUR rights also that are being trampled upon. Me and Sandra Stroud can't and won't do everything for everybody. YOU have to do YOUR part too. All the mess at the School Board and the Commissioners Chambers can be fixed by the right people running for office in 2024 and the smart people voting for the right candidates. Stay tuned and YOU will also know who to vote for in the 2024 elections.
