sooner!! Report and Conclusions by Robert A

“Voter Suppression!” “Voter Suppression!” “Voter Suppression!” has always been the hue and cry of the far left-wing socialist Democrats in North Carolina and other places around the nation when the idea of requiring voter registration to also include such smart-minded ideas as positive identification of the person that is registering to vote is mentioned. So what if ACORN gets caught registering one person 71 times back in the 2008 Presidential and later Elections. As Democrats in Cleveland County and elsewhere would say, “Vote early and vote often.” And anyone suggesting otherwise would immediately be accused of “conspiring” to suppress the voting rights of others. Or worse.

Then. comes the elections of 2022. Republican NC Supreme Court candidates completely swept the field. The NC Senate Republican candidates obtained a “Super-majority.” And the NC House came within one vote of a “Super-majority.” Now, in 2023; with all the Democrat caused record inflation, high gas prices, shortages in baby formula, cat food shortages, egg prices soaring over \$6 per dozen, Drag-Queens performing in front of school children, biological men taking over women’s sports, transgender this, LGBTQXYZ that and finally the Democrats indicting Trump on such bogus and flimsy charges while turning the two criminal extortionist women into heroes; some NC Democrats have seen the light. One NC Democrat woman NC House Member, Tricia Cotham, switched to Republican, giving the NC House a Republican Super-Majority. With a half-dozen or maybe more Democrat NC House members effectively doing the same by often voting with the Republicans. And, with the fact that there are no longer any full-time news media in Cleveland County, Robert A broke that story in CC before the National News Networks.

NOW, the words "Voter Suppression" are about to take on a new meaning that will certainly cause conniption fits amongst the left-wing, socialist Democrats across NC and the Nation. Laws that the old Democrat controlled NC Supreme Court once ruled were unconstitutional will now be rightly found as constitutional. And voters will indeed be suppressed. ILLEGAL voters and their votes will NOT be counted and the illegal voters will be prosecuted to the fullest extent of the new passed laws.

Fair and Honest elections in Cleveland County and NC in 2024 will be the result. And not a minute too soon. There are too many Rogue Republicans are holding the Majority on both the Cleveland County Commissioner's Board and the CCS School Board as well as the NC Governor and Attorney General's office and the President and VP of the USA. And good candidates must come out of the woodwork (Unaffiliated and Republican Conservatives) and out from in front of the TVs and run for these offices. So, folks, get yourself informed. Re-registered as Republican as necessary and be ready to answer the call to duty in the 2024 Elections.
