No Good Government: by Sandra Stroud

I’m convinced by what I see and hear that there is no (such thing as) “good government.” The federal government under Joe Biden and his far-left democrats have brought this country to a place that I never imagined. The ideologs are bringing a great nation to ruin and we’re all just standing around and worrying about things like our nation at war with China, can we afford an electric vehicle in 9-10 years or will we be able to use our gas stoves and have air-conditioning in our home

It’s all very scary to think that an old man with declining mental capacity who has made himself wealthy with illegal boat-loads of money from foreign countries can bring a great nation to ruin. What is wrong with us??? Do we not care about our future and the future of our families? We must fight against tyranny!!

Good Government in Cleveland County died out 20-25 years ago when we started electing people to head up our government who had agendas for personal gain as was played out by some of

our former commissioners. How can we forget "School Merger" being crammed down our throats amidst our protests?? All of our healthcare facilities being sold or given away right under our noses? Our beautiful historic Courthouse being given to a crowd of "visionaries." We're still waiting for payment on this debt they owe Cleveland County.

You see, there is no good government anymore. We elect people to run our government who either want to enrich themselves financially or they have aspirations of elevating themselves or family member into high paying positions. Too many of them want to be career politicians.

It's all up to us to make the needed changes. I'll also add that there is no such thing as a "good ole democrat" anymore. I advise that your choice in politics is on the wrong side of history if you are holding on to that ideology-unless you are filthy rich.

Editor's Notes: More profound and Bible-Based observations are provided by Ms. Sandra Stroud. Again, Robert A is reminded of Proverbs 22:15 which states "Foolishness is bound in the heart of a child; but the rod of correction shall drive it far from him."

Perhaps this Biblical teaching and others like it are a much better solutions to the problems facing Cleveland Count today than anything else that has been offered-up by the left-wing, socialist, liberal democrats and the Foolish Rogue Republicans who are just as bad.

Could it be that Robert A and two other like-minded Commissioner candidates and lots of voters should be the ones wielding the "Rod of Correction" to the Cleveland County government?? Driving out the foolishness as well as the corruption and the waste in the process.

Stay tuned folks, the 2024 elections are much closer than you might think!!

Editor's Note: **Ms. Sandra Stroud** is a fearless Champion of right and proper government in Cleveland County and the US. When Prayer at the beginning of School Board Meetings was the issue, Sandra Stroud stood up and voiced her strong support in front of 600+ citizens. When Shelby Schools refused to teach a deaf child, Sandra Stroud single-handedly made Shelby Schools mend their ways. When the Cleveland County Commissioners surrendered to a Federal Lawsuit against them by agreeing to a settlement that was Un-Constitutional; Sandra Stroud put her name and money behind a Federal Lawsuit and took the Cleveland County Commissioners to the US Federal Courts in Washington, DC and made the Commissioners mend their cowardly ways. When Sandra Stroud sends me her messages, I publish them. Word for Word. Sometimes satire, sometimes prose. When Sandra Stroud speaks, **Robert A** listens. When Sandra Stroud writes, **Robert A** publishes. If there is a typo, misspelling or unclear

language, that is Robert A's, mistake, not Sandra Stroud.

Folks, there are more citizens like Sandra Stroud and Robert A in Cleveland County that want bullying stopped in our schools and in our School Board and education improved. We want no more corruption like what was found out about the Catawba Casino, the bribed sale of our hospital for 2 cents on the dollar, endless sales tax increase referendums, endless property revaluations where Cleveland County has deployed drones to peep into our bedroom windows looking for whatever it is that they can use to raise property taxes over. And it goes on and on.

Stay tuned folks. If you want the truth, the whole truth and justified and logical speculation, you will get it here and perhaps not anywhere else in the same detail and depth of understanding. Also, folks, if you want to throw YOUR 2 cents into our knowledge base or just share your opinion, send it to Robert A. Your identity will be protected. It is completely understood that **RETALIATION** is alive and well in Cleveland County.
