“Bad Advice”: By Sandra Stroud

Ron Humphries is the Parliamentarian for the Cleveland County School Board (CCSB) and again he has shown total incompetence and a failure to carry out his duties. He was silent when Big Kahuna Chairman Robert Queen made a policy prohibiting school board members from entering school buildings without the consent of Supt. Stephen Fisher. Then again at the last school board meeting Humphries was silent when Kahuna Queen put forth the motion to put up two school properties as surplus inventory in a session absent of the public view.

It was the duty of the Parliamentarian to put the brakes on to this action although the CCSB Attorney was present. This attorney should be relieved from her employment for misleading a school board. She allowed this board meeting to take place in a private setting of the public meeting of the School Board. She is guilty of giving bad advice and inadequate representation of her clients. The Attorney and the Parliamentarian (both) failed in carrying out their duties. Both of them led a flock of dumb sheep off the cliff in this illegal action.

As I have stated many times before, what we have for a CCSB in charge of our schools is a flock of dumb sheep, waterboys and lapdogs, with the exception of Ronnie Grigg and Danny Blanton. (And sometimes Aaron Bridges. Sometimes?)

Without going "all in" on the transgender issues I want to make a few points about males who want to challenge women in sports.

What's all this craziness about males who want to participate in women's sports? Where are all the protests and marches from all of these women's rights (activist) groups? These groups can't have it both ways! They either accept and respect that they are biological women or they consider themselves as something else and God only knows what that something else (really) is!!! All these women who travel miles to participate in marches for women's rights, abortion rights, "me too" (support rallies) and on and on it goes. However, when men jump into women's sports in high school and college, there is not a peep from them!! Why don't these women's groups defend women and their sports???

Another point that I will make is that there is a Jurist on

the Supreme Court of the United States, yet this highly educated female cannot give a clear and definite description of who and what is a woman!! It is my opinion that this "whatever" is unfit to sit on the US Supreme Court and make decisions that can affect the lives of the American people when she is too dumb or unwilling to admit that she is a woman. It makes one wonder just who or what SHE really is??

PS: In discussing this article with Ms. Sandra Stroud, she stated that if a man who thought he wanted to be a woman "had to endure the labor pains of delivering a baby," he would change his mind-immediately!!! Robert A suspects Ms. Stroud is 100% correct on that point to!!!

Editor's Note: When trying to figure out this whole "Trans" phenomenon through the Country Girl logic and reasoning of a Ms. Sandra Stroud, you quickly realize that "Trans" **thinking** is not thinking at all. It is all just a "confusion." Or men still wanting the strength of a man but able to unfairly compete against women in women's sports. Anybody with any common sense ought to be able to figure this "trans" stuff out in just about 13 seconds. Nobody with acted out "trans" thinking processes should be able to legally purchase a firearm in the United States. Or obtain a Security Clearance to access National Security information.

Stay tuned for more thought provoking articles. Also, folks, it is getting time for good people who care about our children and their education to get themselves ready to run for the School board in the 2024 Elections. The filing starts in December, with the Primary Elections in early March of 2024. If you wait around, the only people that will be hurt will be YOUR children. Or YOUR grandchildren. More detailed timelines will be provided soon.

Editor's Note: Ms. Sandra Stroud is a fearless Champion of

right and proper government in Cleveland County and the US. When Prayer at the beginning of School Board Meetings was the issue, Sandra Stroud stood up and voiced her strong support in front of 600+ citizens. When Shelby Schools refused to teach a deaf child, Sandra Stroud single-handedly made Shelby Schools mend their ways. When the Cleveland County Commissioners surrendered to a Federal Lawsuit against them by agreeing to a settlement that was Un-Constitutional; Sandra Stroud put her name and money behind a Federal Lawsuit and took the Cleveland County Commissioners to the US Federal Courts in Washington, DC and made the Commissioners mend their cowardly ways. When Sandra Stroud sends me her messages, I publish them. Word for Word. Sometimes satire, sometimes prose. When Sandra Stroud speaks, **Robert A** listens. When Sandra Stroud writes, **Robert A** publishes. If there is a typo, misspelling or unclear language, that is **Robert A's**, mistake, not Sandra Stroud.

Folks, there are more citizens like Sandra Stroud and **Robert A** in Cleveland County that want bullying stopped in our schools and in our School Board and education improved. We want no more corruption like what was found out about the Catawba Casino, the bribed sale of our hospital for 2 cents on the dollar, endless sales tax increase referendums, endless property revaluations where Cleveland County has deployed drones to peep into our bedroom windows looking for whatever it is that they can use to raise property taxes over. And it goes on and on.

Stay tuned folks. If you want the truth, the whole truth and justified and logical speculation, you will get it here and perhaps not anywhere else in the same detail and depth of understanding. Also, folks, if you want to throw YOUR 2 cents into our knowledge base or just share your opinion, send it to **Robert A.** Your identity will be protected. It is completely understood that **RETALIATION** is alive and well in Cleveland County.
