Editor’s Note: Ms. Sandra Stroud has been totally verified as to her attendance and paying close attention at this Special Called School Board Meeting held May 30th, 2023 at the CCS Central Services Auditorium in Shelby, NC. She was sitting on the third row right beside **Robert A.** Everything contained in

this article is based on eye witness observations and clear statements of fact.

Evil Intentions and Evil Acts Committed by Evil People: by Sandra Stroud

The urgent meeting for the CCSB (Special Called CCS School Board Meeting of May 30th, 2023) called by CC Supt. Stephen Fisher and CCSB Chairman Robert Queen was nothing but a blatant evil act perpetrated against good law-abiding citizens of this county; CCSB Members Danny Blanton and Ronnie Grigg. Queen and Fisher had it all planned with the assistance of the CCSB Lawyer; she was the WATERGIRL!! It was overwhelmingly obvious that Queen, Fisher and their five disciples/waterboys had come prepared to unfairly punish Danny Blanton and Ronnie Grigg-no matter what! Supt. Stephen Fisher gives a phony report of his minimizing investigation of no damages at Burns High School except for two (2) wooden tables and a microwave oven that had somehow been dumped into a toilet. Who (nobody) believes that???

Each Board Member was given the opportunity to speak for three minutes. Ronnie Grigg attempted to speak although his freedom to speak was denied by Queen's continual interruptions. Queen would not allow Mr. Grigg to use the words "vandals" or "vandalism" in his comments although that was the reason for the Special Called Meeting (actually two Special Called Meetings) in the first place. Danny Blanton also made a valiant attempt to speak but was also met with incessant interruptions by Queen. There was only one of the waterboys that chose to speak. Walter Spurling spoke gibberish about wearing a "shirt" and consequences. Nothing Spurling said was coherent to a normal person.

This meeting was nothing but an opportunity to act out pure evil against Danny Blanton and Ronnie Grigg who are thorns in

Queen, Fisher and the five waterboys'/disciples sides because Blanton and Grigg ask questions and vote NO when a NO vote is the vote to make under the particular circumstances (the best interest of the children or the taxpayers). Danny Blanton and Ronnie Grigg got an undeserved and phony "censure" for speaking out to the public that SOMEBODY ought to be held accountable for the vandalism and damages at Burns High School in the evening of May 18th, 2023. THEY were then punished by being denied the opportunity to participate in Graduation exercises and attend their committee meetings.

Good!! Who cares and so-what?? They can spend their time enjoying more pleasurable activities. Danny Blanton and Ronnie Grigg did the right and honorable thing as School Board members by speaking out publicly about the vandalism at Burns High School on May 18, 2023. A day is coming when Stephen Fisher, Robert Queen, Joel Shores, Ron Humphries, Greg Taylor, Rodney Fitch and Walter Spurling will be gone from CCS. Danny Blanton and Ronnie Grigg, you will rule before this is over.

Sandra Stroud

Editor's Note: Everybody knows that the addled-headed, but well-connected Principal at Burns High School started all this mess when she gave the BHS keys to a crowd of kids at Burns

High School and didn't adequately supervise them. Everybody knows, but won't admit, that the conspiracy to cover-up the vandalism at Burns High School has in various ways included the CCS Superintendent, Robert Queen and his waterboys, many CCS staff, the Sheriff's Office, the Commissioners and has even now cast a dark shadow on the Burns High School Baseball State Championship trophy that might someday soon have to be forfeited and CCS be expelled for a year from participating in ANY high school sanctioned sports. All because of a prank that morphed into criminal vandalism that was mishandled by everybody right from the start. Everybody determined that a little cheating by cover-up was better than admitting to the truth and handling everything wrong from the start. *Oh, what a wicked web we weave, when first we attempt to deceive.* Remember this little saying when you have to face the music for what you have done. Maybe soon on this earth or later standing in front of Saint Peter. The choice was yours and you blew it. Burning in Hell might be a totally perfect punishment for all that has happened, the dancing with the devil. But didn't have to happen.
