Trump Wins Big in Iowa-98 of 99 Counties!!

Robert A has been sporting a Trump for President yard sign in his front yard for eight years now. But Robert A was not always a full-fledged Trump supporter. Back in 2015, **Robert A**, as always, is careful of his political endorsements. Trump had hinted that he would run for president several time before and ***Robert A*** decided to just wait and see.

Robert A, didn't have to wait very long. As the Big-Sign Media would question all the candidates looking for twisted "gotcha" answers from all the other candidates, Trump was the only candidate who refused to apologize to some offended "fringe" group for his answers and stuck to his guns. After eight years of Obama and Biden, that was enough for ***Robert A***. Trump was **Robert A's** man for President. And has been so every since. Through thick and thin, Phony allegations and phony Russian Stories and Phony lawsuits and phony arrests-No Matter. And, the bottom -line was the economy under Trump was the best in years. Business was booming, unemployment was low, Gas prices were very low and inflation was ZERO. Every Tin- Horn leader from all around the world was afraid to ruffle the feathers of US President Donald J. Trump. This will soon be the case once again.

Same for Cleveland County in the 2024 Primary Elections. Trump will be at the top of the ticket and will win by an overwhelming margin in his race for President in the 2024 Cleveland County Primary Elections. And ***Robert A*** will be working hard to help Donald Trump and other local candidates to **Take Back Cleveland County** from the forces of Political Evil-The CCGOP and their Trump hater minions. The lying Rogue Republicans and RINOs.

This is *Robert A's* recommendations to date for the 2024
