

Is Cleveland County a Sanctuary County??!! All Indications are that it IS a Sanctuary County!!

Editor's Note No 1: Folks, if you are a Red-Blooded, Right-Thinking and Taxpaying Citizen of Cleveland County, you need to read every word of this article!! Even though this article is going to piss you off to the point of raising your blood pressure and heart rate to dangerous levels, YOU need to know just how bad YOUR Elected officials have been selling you out for so very long!! And, Robert A.- Williams is the only one that is going to tell you the Truth!!

Editor's Note No 2: Also, Robert A is going to reverse the order of this article. First, Robert A will be telling YOU the results and conclusions of his very own investigations and later will describe his path of critical thinking and logic that brought Robert A to his conclusions. Plus, a little help from others that have helped Robert A fit together the pieces of the puzzle on his path of discovery.

Uniquetex is a large company located at 700 South Battlefield Avenue in Grover, NC. The Guangdong Beautiful Health Co. Ltd, located in the Guangdong Province of the Peoples Republic of (Communist) China, owns Uniquetex, lock, stock and barrel. FYI: 700 South Battlefield Avenue in Grover, NC was previously owned and operated by Polygram. A very large employer in Cleveland County. Now, the Cleveland County Commissioners and the Cleveland County Economic Development Partnership have both actively supported Uniquetex with Cleveland County tax

dollars, tax incentives and county resources, to assist Uniquetex in job fairs and perhaps "other venues" to attract "workers" for Uniquetex.

The picture below was extracted directly from the Uniquetex website under the heading OUR FUTURE. Clearly Communist China has plans for THEIR FUTURE that includes the United States. And, especially Cleveland County and Grover, NC.

This picture was extracted directly from the Uniquetex website under "About US." Neither this picture, nor any other picture on the Uniquetex website shows anything but white or black American men or women. No Asiatics, or Hispanics are shown or mentioned anywhere.

Upon further examination, there is another company with the same address as Uniquetex. 700 South Battlefield Ave in Grover, NC. It is called Ecogard. Ecogard makes Oil Filter, hydraulic and other filter "media," face masks and other similar products. Perhaps all from material produced by Uniquetex? All marked "**Made in the USA.**" Note that, according to **Buzzfile**, Ecogard has 16 employees and the CEO and Contact person is Weixiong Deng. Clearly NOT an American name.

Also, Buzzfile states there are three companies operating at that same 700 South Battlefield Avenue in Grover, NC. Uniquetex and Ecogard are listed. That third company is NOT listed. Who know what this third company does??

Now, let's dig a little deeper.

GlassDoor.com is a rating entity that rates companies such as Uniquetex. This is what they report:

Uniquetex Reviews:

- ...The salary is very low and poor management team.
- **Pros**-You will work seven days (over) two weeks, each time 12 hours. **Cons**-The workshop is so noisy.

*Any more reviews from GlassDoor required creating an account.

However, Glassdoor reported that the Uniquetex Base salary was \$13 per hour. Significantly lower than comparable area pay-scales for such manufacturing jobs.

And, all this noted above was the good part.

Robert A has received information that complaints of child abuse, neglect or dependency, have been made to the Cleveland County Department of Social services regarding 700 South Battlefield Ave. in Grover. It was alleged that many Hispanics, men, women and children, were actually living in certain parts of the large building or packed into mobile homes brought onto the site. It was also reported to **Robert A** that many of these Hispanic men, women and children were likely NOT in the United States or Cleveland County by any of the legal processes and are likely **NOT** properly verified to work in the United States. The report went on to say that the Cleveland County Department of Social Services investigated these alleged reports of Child Abuse, Child Neglect and Child Dependency and took some sort of official actions that have NOT been publicly reported. Since the CCDSS works for the CC Commissioners, it is not likely that this report will be verified as true or false. Therefore, this particular report must be considered as gossip. Gossip, that all too often turns

out to be true.

Also, Commissioner Chairman **Kevin Gordon**, in a 2024 Election Political announcement, claims to be a “**Champion**” for Economic Development in Cleveland County. But Kevin Gordon’s record in office clearly shows that under his so-called Leadership, Kevin Gordon has **NOT** championed anything close to even a fair record in Economic Development. Or much of anything else (if you include the big \$100 Million\$ holes in the ground where the new Justice Center Project is supposed to be).

In fact, the most recent \$6 Million Dollar gamble on an Economic Development “Shell Building” has fizzled and Cleveland County is now in debt for another \$6 Million\$. Another stupid “Deal” with a Communist China Company that would have created 134 average paying jobs fell through in an embarrassing moment when Gordon and his fellow failures for commissioners tried to hide their failure in the Commissioner’s Meeting “Consent Agenda” at a more recent Commissioner’s meeting. But was discovered by **Robert A**. And, **Robert A** had recommended the Commissioners stay away from that deal with the Commies in the first place in that original meeting. A sound recommendation by **Robert A** that the Commissioners, including Kevin Gordon and Johnny Hutchins, refused to listen to.

And, let’s not forget the costly EMS hostile takeover of the Cleveland County Rescue Squads. Another \$12 Million-dollar (maybe \$12 Million per year) failure that Kevin Gordon is trying to hide behind his statements that he fully supports Fireman and all First Responders.

And, since the Cleveland County Commissioners have total control over the Cleveland County Department of Social Services, you can bet that Kevin Gordon, Johnny Hutchins and the rest will never release any information about the DSS investigation of the 700 South Battlefield Ave., Grover location child abuse, neglect or dependency allegations, much

less of any role of assisting (by the use of County taxdollars) the mass invasion at our Southern Borders by taking in all these illegal persons pouring into the United States AND into Cleveland County.

Folks, The Cleveland County Commissioners have poured \$Million\$ of Cleveland County Tax dollars over the past few years into Economic Development Projects in one way or another. Downright giveaways of county (taxpayer) owned property, tax incentives for years down the road, infrastructure improvements and whatever else they could give away. All the time claiming jobs, jobs and more jobs. And never once have the Commissioners, especially under Kevin Gordon's leadership, imposed on any company a requirement to verify the legality of any employee they hire to legally be a resident of Cleveland County or even to have a legal right to work in the United States. To **Robert A's** knowledge, NEVER, EVER have the Commissioners imposed such a simple requirement. And since it is Cleveland County Taxpayer money they are giving away, have every right to impose this one simple requirement. To require that the jobs that are alleged to be created, are filled by Cleveland County residents. Or at lease the jobs are filled by workers who are cleared to legally work in the United States.

Folks, it is even worse than that. Not only are the illegals invading the Southern Border of the United States and Cleveland County as well; Not only is Cleveland County giving away County Taxdollars to companies that might be exploiting illegal immigrants for their own increased profits, all these illegals are signing up for tax paid benefits like food stamps and such, (and some of these illegals are gang members that are bringing crime and drugs into Cleveland County in record amounts), but the Children of these illegals, who are illegal

themselves, are piling into Cleveland County Schools to not only be educated, but to also learn the English language good enough to ask for more taxpaid benefits. And to eventually vote in our elections.

Folks, this is the end of this article. And Robert A hopes nobody has become so pissed off as to have blood pressure or heard issue due to becoming aware of what is going on in front of our own eyes caused by the incompetence of out Cleveland County Commissioners. But, remember, this article is Upside Down. The end above was put before the beginning that is provided below.

Robert A hopes you readers will continue this article to see how Robert A figured out what was going on and informed the public. How Robert A took interest in something that appeared small but turned out to be really important for Cleveland County citizens and voters to know about. To vote OUT Kevin Gordon, and the other Incumbent Commissioners and VOTE IN Robert A. Williams for Commissioner and two other good Commissioner candidates who will put a quick and full stop to such shenanigans as described in this article.

The following was the original beginning of this article.

Editor's Note: *It must be apparent, to the most casual of observers, that the Cleveland County Commissioners pour lots of CC Taxpayer dollars into many Agencies, Departments, groups, so-called "Partners," the Fair and Cleveland County Schools, etc. without ever requiring any Accountability.*

Fiscal responsibility or anything else that is reasonable. They just throw tax money out to those various entities and never look back. "It is THEIR RESPONSIBILITY" they might say. If pressed, they say. "Once we give out the money it is their responsibility to see that the money goes where it is supposed to go." Which creates a perfect opportunity for mischief, corruption and other bad stuff.

In the past several days Robert A has received many political "Flyers" from candidates promising everything under the sun and never telling how those promises will be accomplished. Two Flyers especially caught Robert A's attention and set off a bit of *critical thinking* that Robert A has become famous for.

The first political flyer was from Tim Moore's campaign for US Congress. As a US Congressman, Tim promised to "Stop Sanctuary Cities." On the backside of the flyer, Tim Moore listed one of his accomplishments as the NC Speaker-of-the House was "To ban lawless sanctuary cities in North Carolina." Somehow this caught Robert A's eye as something to look into.

Then, the very next day, Robert A received a similar flyer from NC House, Representative Kelly Hastings. Kelly listed one of his "Promises Kept" was Kelly "Outlawed Sanctuary Cities." Something was ringing Robert A's mental bell. There were other memories coming together in Robert A's thought patterns that were the missing picture of a pile of jig-saw puzzle pieces that a little bit of *critical thinking* was making that jig-saw puzzle start to come together. It was not a pretty picture.

Within the past month or so, at a CCS School Board Meeting, the CCS Superintendent Stephen Fisher made a statement that

Cleveland County Schools ***“was teaching in 30 different languages.”*** A statement echoed by School Board Chairman Robert Queen at the recent WeRCC School Board Candidates Forum, like it was something to be proud of.

There are reports every day about the “invasion at our US Southern Border.”

Where over 11 Million people have illegally crossed into the US over the past three years. If you divide 11 Million people by 50 states, each state would get 220,000 illegal entries. Divide North Carolina by 100 Counties, ***Cleveland County's equal share*** of illegals (which is totally wrong to begin with) ***would be 2,200. This in when the numbers go rotten very quickly.***

—

Since Cleveland County is not a powerhouse economically, culturally or anything else; thirty languages taught at CCS would indicate that at least 30 students have learned 30 different languages from 30 foreign nations from around the world and then found their way to Cleveland County North Carolina, USA. A “guess-timate” would be that the number of different languages being taught, that there would be at least 20 kids per language. Or at least 600 foreign students in Cleveland County illegally. If you factor in the student's Parents, and the unaccompanied fighting age men, that **2,200** number of illegals would be reasonable; everything shared equally, have somehow found their way into Cleveland County and have hooked themselves up to free (to them) food, housing and education. And, most likely low paying jobs. And, pipelines to the drug trade are obvious. Which is killing Americans in record numbers.

So, **Tim Moore, Kelly Hastings** and **Ted Alexander**, despite all your brags and promises about stopping sanctuary cities,

Cleveland County has become a Sanctuary COUNTY, right under your very own noses. Perhaps it is high time that somebody sees to it that Cleveland County's "borders" ARE ALSO MADE SECURE!!

Then, there are all the news stories about **SEX** trafficking, **HUMAN** trafficking, **DRUG** trafficking and **GANGS**. You have to figure that if it happens at so many other places in the USA, it is also happening right here in Cleveland County, North Carolina.

Now, consider this. What if all things are **NOT** equal???. What if Cleveland County is seen by the Drug Cartels and the Sex Traffickers and the Human Traffickers as easy marks because of incompetent leadership or leadership that can be easily "bought off" or easily bribed. (All of a sudden, Former Commissioner Eddie Holbrook and Former County Manager David Dear, the ones who made big money under the table from the Catawba Casino, suddenly come to mind.) Are Kevin Gordon and Johnny Hutchins any more honest than Holbrook and Dear??? (Or, are they just asleep at the wheel??)

Basically, all that matters is, do the Drug Cartels think Cleveland County is an easy mark to send Drug, Sex and Human Traffick to? If so, those 2,200 illegals could be multiplied by 2, or 4 or 8 or 10. The sky is the limit. **Robert A** smells a rat. A BIG RAT.

This is MUCH bigger than 30 languages being taught at Cleveland County Schools!!

Elect

Robert A.

Williams

for

Cleveland County

Commissioner

Best Qualified & Ready to Serve

Take Back Cleveland County

Robert A's Top-Ten Goals

- **Fair & Honest Representation**

Paid for by Williams for Commissioner TBCC

Folks, **this is the end of the beginning** of this article. As you have already read the end of this article, you can see for yourself just how good **Robert A** is in figuring out where the failings are in Cleveland County Leadership. And, when you figure out those leaders that have failed you, you will find that **voting for Robert A. Williams for Commissioner** will be a giant step in cleaning up the mess that Cleveland County has become.
