Gun Detected at Shelby High School this past Week!! Bomb threat at Shelby High School just a couple of weeks ago!!!

Editor's Note: *Robert A* has often described the Rogues on the CCS School Board; Chairman Robert Queen, Joel Shores, Ron Humphries, Rodney Fitch, and Greg Taylor as being unethical liars and worse. *Robert A* has never described this unsavory crowd as being STUPID. They know that the Shelby Star is no longer in Shelby. They know that the Shelby Star has no reporters in Cleveland County to check up behind them or their deceptive Press Releases. They know how to recruit support from the bottom of the barrel in the CCGOP to do their every bidding. They know how to look you in the eye, lie to you, and keep a straight face. They know how to "spin" a story to their advantage. They also know when they are behind in the 2024 School Board Elections and it is high time to deflect public opinion away from their many faults and failures and dream up schemes to deceive the public into believing they are on top of protecting YOUR Children. Even when they are hiding their true record. This is what THIS article is all about. Uncovering the lies and deceptions of Robert Queen and his gang to again deceive the public that they should be reelected. The failures of the Cleveland County Schools cannot continue another four years with THIS den of deception in control for another four years!!!

Cases in Point:

1. **The recent *Bomb Threat* at Shelby High School on February 9, 2024.**

Robert A **covered this story and immediately Smelled a Rat. For your convenience, *Robert A* has republished his report and conclusions from his February 10, 2024 report as follows:**

****

Was Bomb Threat at Shelby High School the Result of Terrorist Training???

Recent FBI Report to the US Congress Supports that Possibility!!!

FBI Report also Supports the Case for a Dirty Political Publicity Stunt!!!

Truth Report, analysis and conclusions by ***Robert A***

Editor's Note: ***By now everybody must know that Robert A always endeavors to find the truth in everything he writes about or says. This practice also applied to Robert A's last article titled Everybody is talking about the bomb threat at Shelby High School. In fact, that previous article was getting a little bit too long so Robert A decided to publish this article as a completely separate article for his readers convenience.***

Folks, less than two weeks ago (January 31, 2024) FBI Director Christopher Wray warned the United States Congress of Five (5) Terrorist Threat risks that the USA Should be worried about. Wray stated (in part of his presentation) **"That risk is more likely to be a *lone actor, targeting so-called soft***

targets **here in the United States, which is facilities, houses of worship, schools – places that people every day in America go … and so to defend the public we all serve, we need to be mindful of that heightened terrorist risk."**

What we also know is that Cleveland County Schools, as well as all local law enforcement agencies and individual citizens, like ***Robert A*** and ***YOU*** citizens of Cleveland County, already receive so-called junk or Spam phone calls every day. From hackers that can "Hack" your or my telephone numbers and make junk calls to someone else. And their Caller ID will show that the call came from OUR telephone numbers. Since the CCS School Board "Safety Committee" is responsible for considering all threats to Cleveland County Schools, those CCS Safety Committee members must know this too. School Board Member Rodney Fitch is on the CCS Safety Committee. And ***Robert A*** personally knows that School Board member Joel Shores, a former high-level Sheriff's Office official was once on the CCSO's team to teach parents how to determine if pornography was being stored on their child's cell phone. And other such communication tricks.

It is believed that Joel Shores, while at Sheriff's Office, posed as a young girl on an internet dating site and lured/entrapped a high-level CCGOP officer into a rendezvous at the Cleveland Mall, where the CCGOP Official (Billy Estes) was arrested, tried and convicted for his actions. Obviously, Joel Shores knows how to communicate over a phone connection and hide his true identity.

It is just as obvious that both Joel Shores and Rodney Fitch have knowledge of, or have access to the knowledge of hiding their identities in phone call situations. Both Rodney Fitch and Joel Shores are big parts of the Rogue Republican contingency on the CCS School Board and are indeed up for re-election in the 2024 Republican Primary Election. All of the

School Board's five members up for re-election this year lied to the public in 2020-claiming Transparency was their number one priority then had no part of transparency this past four years into their term. Thus, ALL five: Joel Shores, Rodney Fitch, Robert Queen, Ron Humphries and Greg Taylor are expected to lose their seats in this 2024 Republican Primary Election. And all five are well documented as deceivers, liars, and crooks for their criminal and conspiratorial roles in violating State law in their twice voting to break the law regarding the CCS School Calendars.

In conclusion, each of these School Board members running for re-election is believed to have the motivation, skills, and opportunity to place an untraceable phoned-in false bomb threat to any CCS School that they chose to disrupt. Including the Shelby High School facilities. For the purpose of them pulling off a ***Political Publicity Stunt right before the 2024 elections to get themselves re-elected to the CCS School Board for another four years.***

****

Folks, the Shelby Star report of ***the CCS Press Release*** on this Bomb Threat incident ***overly emphasized*** that Cleveland County Schools and the CCS School Board did such a great job in making policies that enhanced the safety of children, under-emphasized the fact that no culprit, perpetrator or even a suspect was ever identified. Something that is about to repeat itself as shown below.

2. **The Gun incident this past Monday at Shelby High School!**

The Shelby Star report on the CCS Press Release started off

well enough. The first sentence or two anyway. That a "student" had entered Shelby High School and set off an alarm in the newly installed metal detectors. That a search of the students bookbag found a small pistol inside the bookbag.

Then the Star Article, as presented by the CCS Press Release, immediately forgot the details of the alleged "student" perpetrator and went on and on about how good and wonderful the CCS School Board crowd under Chairman Robert Queen hand foreseen every detail of keeping students safe at School. And how Shelby High School then went on with its business.

Again, the report ***overly emphasized*** that Cleveland County Schools and the CCS School Board did such a great job in making policies that enhanced the safety of children and under-emphasized the fact that no culprit, perpetrator or even a suspect was ever identified. Something that is very strange since the "perp" was alleged to be a Shelby High School "student."

However, sources have reported a much different report of this ***Gun incident*** at Shelby High School.

According to these differing reports: a "***suspect***" entered Shelby High School carrying a bookbag. The suspect entered the newly installed metal detector area and the machine went into its ALARM mode. Then, **the suspect immediately turned around, bolted out the entrance doors to Shelby High School, and ran all the way up to a nearby McDonalds at the intersection of South Dekalb Street and Dixon Boulevard. Where the suspect entered the waiting vehicle of an accomplice and the suspect and accomplice then drove away. Uncaught and unidentified.**

Folks, just how stupid do the likes of Robert Queen, Joel Shores, Ron Humphries, Rodney Fitch, Greg Taylor, Pam Keller, Kevin Gordon, Johnny Hutchins, and Dennis Bailey think we are??? The Rogues tired old dirty political tricks of overly emphasizing that Cleveland County Schools and the CCS School Board did such a great job in making policies that have enhanced the safety of children while under-emphasizing the fact that no culprit, perpetrator or even a suspect was ever identified. Such dirty political tricks have worn thin and should not be taken seriously any longer.

This coming Tuesday, March 5th, 2024 is election day and there are plenty of QUALIFIED School Board and County Commissioner Candidates to send the old crowd packing. All it will take is a just few strokes of the ballot marking pen to an Election Ballot and the majorities on both the CCS School Board and the Cleveland County Board of Commissioners *are completely changed out.* Folks it is YOUR civic duty to do just that.

For the CCS School Board, Robert A recommends the following Selection of Qualified Candidates:

Chose YOUR Five of the Following Six

- **Samantha Davis:**
- **Kenneth A. Ledford**
- **Sheila Canipe**
- **Matthew Canipe (no relation to Sheila)**
- **David Fisher**
- **Jay Carpenter**

For the Cleveland County Board of Commissioners, *Robert A* recommends voting for the following three Candidates:

- **Robert A. Williams**

- **Linda Laine**
- **Carter York**

YOU will be glad you did!!!

Elect

Robert A.

Williams

for

Cleveland County

Commissioner

Best Qualified & Ready to Serve

Take Back Cleveland County

****
