The RETURN of Robert A: As told only as Robert A can tell it!!

Folks, Robert A is pretty much all mended up now!!!

Back to walking, back to talking and back to telling it like it is!!!

Seeking the truth; telling the truth; and “Sniffin’ out” the Rats!!!

Folks, This ain’t over ‘til it’s over!!!

All you folks that have been calling around wondering where Robert A has been these past several weeks or so can now rest assured. Robert A was just recuperating from whatever this latest “bug” that appears to have been going around Cleveland County for the past several weeks or so. Robert A was staying at home, spending plenty of time, day and night, in bed. Sometimes not even taking his shoes off. And sleeping about 20 hours per day. Not paying attention to (or caring) whether the phone was ringing or whether it was rain or shine outside. Cold or hot. And losing about 10 pounds in the process.

A special thanks to all you concerned folks that did manage to get through on the telephone with your calls. And to you folks that left phone or email messages. I am still catching up on these messages. Thanks for your patience and your concern!!!

Perhaps the strangest news Robert A has received in the past week or so was that some of his Williams For Commissioner campaign signs that had been previously picked up after the

2024 Primary election were now reappearing at locations that were KNOWN and verified to have already been picked by Robert A's "team." And, had Robert A done that on purpose???

The FACT IS Robert A made every effort to fully remove his signs as required by NC Law. However, during this sign cleanup process, Robert A did publish a statement requesting that anybody that came across a Williams For Commissioner campaign sign, where it should not be, to pick it up and properly dispose of it. Or, KEEP it as a souvenir on your own property. Perhaps that has been the case with these resurrected signs.

Another possibility is some of the large number of Williams For Commissioner campaign signs that were STOLEN during the 2024 Primary Elections (especially around the CC Fairgrounds and other locations near county owned properties, where county employees are believed to have been "ordered" to illegally remove Robert A's signs; were somehow saved by county employees for such a "nefarious" purpose such as this.

No Matter!! If anybody desires a Williams For Commissioner campaign sign to legally display or use on your own property, contact Robert A. Robert A also enjoys a little humor and jest every now and then.

Folk's also remember: Despite what the CCGOP Rogue Republicans say, THE 2024 ELECTIONS ARE NOT OVER YET! The majorities on both the CCS School Board and the CC Board of Commissioners are still in play in the November, 2024 General Elections. As someone very smart once said; "IT AIN'T OVER 'TIL ITS OVER!!!"
