

Cherokee County Schools (Gaffney, SC) are Recruiting Employees!!!

Editor's Note: The advertisement below was published on Page 2 of the July 3rd 2024 Shelby Shopper. The fact that the Cherokee County (SC) School District is hiring and the Cleveland County Schools (NC) are firing (laying off) at least 50 employees pretty much tells it all. Especially if you are Robert A and have attended almost ALL of the CCS School Board meetings for the past 14+ years

Folks, please take a few moments and read through this Cherokee County School District advertisement. It is totally obvious from this small advertisement that the Cherokee County folks are "on the top of their game" and their "game" is properly educating students. They are looking for top of the line Teachers and other school employees. And are willing to offer competitive compensation and benefits to the "right" people. Not necessarily to the best "suck-ups" and "kin" to the "right" people or Sunday School Class like CCS is very well known for.

*Grow, Connect, and Work With Us! Cherokee County School District
Gaffney, South Carolina*

The Cherokee County School District is dedicated to recruiting and retaining the very best employees for its students. The Cherokee County School District offers competitive salaries and a comprehensive benefits package. We believe that our employees should be appreciated, given opportunities for personal and professional development, and work in a supportive environment that emphasizes preparing our students for a successful future.

Please visit our [website](#) to complete an online application. If you need assistance with the application system or process, please contact the Human Resources office at 864-206-2201.

Preparing Today's Students to Become Tomorrow's Leaders And, since nobody at CCS knows who might be getting the "axe;" that "sucking" sound we will all be hearing after this Holiday weekend will be from all the CCS folks heading over the state line to buy some SC peaches in Gaffney. As well as putting in their applications to the Cherokee County (SC) School District. And, who can blame them???

And, who can blame all the Cleveland County, NC parents who are turning to Charter Schools, Private Schools, Church Schools, Home Schools and anywhere else besides CCS Schools. At CCS Schools, the roofs leak and the students get wet whenever it rains. Or, the kids all get sick from all the mold that grows on the rain-soaked ceiling tiles.

And, let's not forget all the bullying, fighting, violence and such is kept secret or lied about-claiming that such as that does not happen at CCS. And the lesson plans at CCS that teach Gay Pride instead of the "Three R's."

And, then there is the CCS School Board headed up by Chairman Robert Queen and all his Rouge Republican "Waterboys" and fund wasters. They've wasted all their money and so have the CC County Commissioners with the unnecessary new Justice Center boon-doogle.

All in All, Robert A has concluded that the education of Cleveland County School students will only be accomplished when the Christian Churches in CC all band together and form Church Schools throughout all of Cleveland County. Speed up what Churches like Elizabeth Baptist, under Pastor Rit Variale and Grace Christian Academy have already started, along with Pinnacle Classical Academy. And, to Hades with CCS and their

do-no-good School Board.

Folks, tell your Preachers to get your Churches aligned with Christian Prayer and the Bible-King James Edition. And in a hurry too. Before the Cherokee County School District hires up all the good CCS employees and teachers.

Stay tuned!!!
