

Lots of Problems with the Trump shooting cover-up stories!!

Editor's Note: This picture of President Donald Trump above is actually a "Mug-Shot" photo taken during one of his many phony arrests over the past several years. This mug-shot clearly shows that a high-power rifle shot to the upper tip of resident Trumps right ear had to have been made from this

exact angle to have just “sniped” his right ear and not have been a fatal shot. A shot from any other angle or direction would have pierced his ear and just gone through the ear tissue, his skull and directly into his brain. And come out on the other side of his head!!! A certain fatality.

Folks, Strange things have gone on leading up to this failed assassination attempt on July 13, 2024 of former US President Donald Trump. Before and after. (For brevity, we will just hit the high (LOW) spots.

□In 2015 and 2016 Presidential Candidate Donald J. Trump was accused by his Democrat opponent, Hilary Clinton, of colluding with the Russians to get himself elected. Evidence purported to be from an FBI Agent led to many years of “witch-hunt” investigations resulted in a \$40 million investigation price tag that ended up being debunked as knowingly false.

□Three women came forward with sexual allegations against President Trump from many years before.

1. One woman claimed Mr. Trump had sexually touched her in a store in New York City twenty or so years ago. “Or so” because she couldn’t remember even the year; had no witnesses; never made a police report and now that Trump was running for President, she must have calculated that Trump would just pay her off. A Democrat jury awarded this woman \$80 Million. The woman was very thrilled to get so much money.

2. A Porno Star had a consensual sexual episode with Donald Trump way back in 2006 or so. When Trump announced his run for President, the woman blackmailed (extorted) Trump that she would sell her story to the National Inquirer if Trump didn’t pay her off. Trump paid her off but the woman told her story anyway. And took Trump to Court to get more publicity. The Porn Star lost her case, her lawyer went to jail and the Court Ordered the woman to pay Trump \$500,000 or thereabouts.

3. A Playboy Bunny had a consensual episode with Donald Trump

many years ago. Much later when the Playboy Bunny and her then boyfriend found out that Trump was being extorted and paying off, they wanted part of this action. They conspired to blackmail Trump into paying \$1.5 Million or so. And, later, went public anyway. Perhaps being paid off also by political enemies of Donald Trump.

4. None of these three blackmailing women were ever criminally charged with blackmail or extortion or anything else. Also, when Trump was hit with phony criminal charges in New York City regarding some of these allegations, the Democrat Prosecutors never charged any of these women with blackmail, extortion or anything else.

□ In the US Presidential Elections of 2020 there were serious allegations of voter fraud committed by the Democrat Candidate's campaign personnel. No officials at the local, State or National investigating and prosecuting agencies seemed to have much interest in seriously investigating the complaints lodged by the Trump Campaign against the Joe Biden Campaign as well as his son, Hunter Biden.

□ Throughout the years between 2020 and 2024 many (Hundreds) of Donald Trump supporters and even staff were jailed and imprisoned by a "Lawfare" campaign against them perpetrated by the FBI, The Department of Justice (DOJ) and various other local, state and Federal agencies. Many (MOST) of whom had advocated to imprison Donald Trump and his supporters as part of their political campaigns for office.

□ In a dispute on whether or not there were classified records at Donald Trump's residence in Florida, the DOJ/FBI launched an armed military style "raid" on Trump's Residence and searched through Melania's "underwear" drawers in the process.

□ The Biden White House Staff and perhaps many other prominent Democrat donors and supporters have attacked the US Supreme Court and especially Justices Alito (and Mrs. Alito), Clarence

Thomas and others for anything they ruled upon that was in Trump's favor. US Rep AOC has even filed impeachment proceeding against Justices Alito and Thomas and perhaps others. AOC has also included criticized Mrs. Alito for flying an upside- down American Flag as a reply to an unruly neighbor that disrespected her. (Note that Mrs. Alito made no act of violence toward her disrespectful and foul-mouthed neighbor.)

□The investigation of President Donald Trump's failed assassination attempt has been assigned to the USDOJ/FBI. The very same crowd that have made up tall-tales against Trump and his supporters; and provided phony investigations and prosecutions for the past 8 years. It appears to be a 100% certainty that the would-be assassin would be a "Lone-Wolf" who was consistently bullied all through his years of Public-School education. Who had just gone astray with an AR-15 rifle that belonged to his father?

□This list could go on and on. All with the National News Media "agging" it on, with total disregard to all the hateful rhetoric originating from High Level Democrat apparatchiks'.

And, now that the assassination attempt against President Trump has completely failed, Trump is OK and ready to fight even harder (and so are his supporters); The Democrat officials from all around the County have rushed to their partners in conspiracy, the National News Media, with almost the exact same statements. "There is NO tolerance for violence in American Politics" "The temperature needs to be 'cooled down'" and other such similar messages.

The Biden Campaign has also been forced to remove as many of their hateful, deceptive and phony attack advertisements against Trump as possible to minimize the backlash of the failed assassination attempt. Joined in by their co-conspirators, the National News Media. Even some Republicans have now swallowed up that obvious political bait.

However, under close and well-reasoned scrutiny, one has to come to the obvious conclusion: Such statements are coordinated and phony. The Biden Campaign, as well as most of the National and down ballot Democrat Candidates would have been very glad to have gotten permanently rid of Trump as a candidate for US President. A successful assassination of President Donald Trump by a Registered Republican assassin, at a well-attended Republican event would have suited their Democrat purposes very well. And, Most of all, if President Trump had, in fact, been successfully assassinated; These very same Democrats could have come out with these very same and identical comments and messages. Cried at Trump's Funeral, but laugh under their breath as they are sworn in at their own inauguration ceremony.

How can any logical and astute observer of 2024 National, State and Local politics reach any other conclusion???
