Conclusions:

1. All in all, it certainly appears that Mr. Ryan Wesley Routh has been much more “patriotic” than the average citizens/voters of Cleveland County.
2. Ryan Wesley Routh has been unduly influenced by the never-ending National Democratic Party’s false assertions and phony propaganda that President Donald Trump’s term in office is responsible for all the inflation, illegal migrant influx into the USA, great increase in gas prices, etc. That President Donald Trump is the greatest threat to Democracy since the Civil War. That, if President Trump is elected to a second term, he will personally destroy America and our way of life. It is also very likely that Mr. Routh’s total education was in Public Schools where he was never properly educated in reading and proper comprehension of what he had just read. And was subject to the never-ending indoctrination of Public Schools which facilitated Mr. Routh’s shallow understanding of Biblical morals, the law of the land and other ever increasing WOKE teachings that have been prevalent in NC Public Schools for many years.

Editor’s Note: In fact, the capture of Mr. Ryan Wesley Routh *alive* is very important. It offers an opportunity for unbiased experts to analyze Mr. Routh’s lifetime experiences and environment to prove whether or not our present educational systems in NC and the USA were a large part of Mr. Routh’s misguided motivation to assassinate President Donald Trump and perhaps do harm to others. It will also allow interrogation of Mr. Routh to discover how he obtained the unpublished information regarding President Donald Trump’s detailed itinerary for September 15, 2024. Which only the

Secret Service and other government agencies would have that information. Of course, the WOKE Biden/Harris crowd will certainly oppose such an idea. Which is just another good reason to Elect Donald Trump President in the 2024 Elections. Before Mr. Routh "accidently" dies while imprisoned.
