

Thank you: Kamala Harris, Joe Biden, Barack Obama, Hilary & Bill Clinton!!

Folks, today is November 6, 2024. The day AFTER Donald J. Trump was RE-Elected as President of the USA #47 by a landslide.

America (and Cleveland County too), after years of failing Public Schools. And the Public School's incessant indoctrination such that boys and girls are always confused about whether they were boys or girls. Or somewhere in between. And, all the while NOT being taught how to read, write, do math and everything in between. Certainly NOT being able to read or hear and to comprehend what THEY had just read or heard.

Where everybody had their own personal "right" to have their own "set of facts," that were really not "facts" at all. But, lies that were told over and over again until lots and lots of US citizens became used to believing that the lies they were just told were indeed the truth. Or, the truth of the day. And, on and on.

Therefore, Vice-President Kamala Harris had to be sworn-in as the Savior of America JUST because she hadn't been to Europe OR to the Southern Border. Therefore, she had always done an excellent job at everything. Although she had actually NEVER done a good job at ANYTHING. And, that was just the way it was, and was forever going to be!!

Then, the votes were counted last night and Donald J Trump had won the 2024 Presidential Election by a landslide; despite all the phony lawsuits, "lawfare," false charges, phony Judges, low-information juries giving false convictions on made up charges.

The two assassination attempts. Hollywood's dirty money. The FBI, CIA, DOJ misinformation and probably more than we will ever know about. Trump working at McDonald's, driving a Garbage Truck, holding large political rallies everywhere. Fight! Fight! Fight!

And, on November 5, 2024, voters from all across the USA go to vote in very large numbers. "Too big to Rig" was the battle cry. And, the large masses of voters, all over the USA, **Robert A** included, Mark their ballots for Donald J. Trump for President. And when the votes were finally counted, Donald J. Trump wins the election to US President by a landslide.

Now, despite all the hate, spite and unnecessary peril, the vast majority of voters in and around the USA are all walking around today, wearing their MAGA hats with big smiles on our faces. All because Kamala Harris, Joe Biden, Barack Obama, Bill & Hilary Clinton have made such a mess in America for so long; that voters finally got fed-up enough to do something about it. And did do something about it.

Perhaps Cleveland County voters will someday learn that they can clean up the messes here in Cleveland County at the very same time they are cleaning up America. That lesson will be coming home to roost here in Cleveland County with the very next Property Tax bill in early 2025. And, **Robert A** will say, **I told you so!!!** As many \$Hundreds fly out of taxpayers' pockets!!
