Nov 4 School Board Meeting—Dirty Tricks Done Administratively!!

Folks, it has been an amazing past several days! And continuing! Some things like the Cleveland County Schools Board of Education has been purged of three Rogue Republican School Board Members. Led by **Robert Queen**, and followed by **Rodney Fitch** and **Greg Taylor**.

NOW, at the National Level, Former President Donald Trump cleaned house on Election Day and President Joe Biden and Kamala Harris will be gone from the scene in short order. All of those incumbents named here in bold type, from the CCS School Board to the to the current President and Vice President are now officially "Lame Ducks." And the sooner they are all totally gone, the better.

_Folks, ***Robert A*** recommended CC citizens turn out in great numbers to the November 4, 2024 CCS School Board Meeting. But, 99.999999% stayed home. Most of the Dirty Tricks predicted by **Robert A** were done Administratively (buried in the text of various documents) and done with a single vote with little to no discussion. So, there wasn't that much to see unless you had read ***Robert A's*** previous articles that had correctly predicted what was going to be done. So, folks, you didn't miss much there.

Except, toward the end of the meeting, there was total proof that Queen, Fitch and Taylor were on the brink of delusional thought when they claimed, during Board Comments, that CCS was performing at the top of the whole State of North Carolina, when all the measures of School Performance placed Cleveland County very close to the BOTTOM. They claimed that criticism was bad and only they knew what was right. And were

acting accordingly.

What they were totally and purposely ignoring was the fact that criticism, in the form of measuring performance and comparing CCS with other school districts is a constructive process. A process found in ***EVERY*** method of ***Continuous Improvement*** programs found in use all across America. A continuous process of evaluating your own performance and comparing it with others. And, purposely ***FINDING PROBLEMS and FIXING the problems***. But, NO! To Robert Queen, Greg Taylor, Rodney Fitch and the CCS Staff, led by Stephen Fisher**, finding problems is an indication of disloyalty and the person bringing up problems has to be gotten rid of**.

Now, CCS will soon have three new CCS School Board Members and Robert A will be looking over their shoulders just as much as ever. Because, the fact remains, Cleveland County Schools is NOT at the top, it is near the bottom. Sure, there are a few CCS Students that excel, but that are so many that graduate who cannot read, write, do math at Grade Level. And worst of all, who cannot properly comprehend the instructions, verbal or written, that they were just presented.

Robert A has provided the link to the CCS video for the November 4, 2024 School Board Meeting for all to see:

https://www.youtube.com/watch?v=S7w_Z4sd4RU

Folks, Watch this video, especially toward the end. WE will come back to this in more detail at a later date. Right now, *Robert A* is evaluating the results of the 2024 Elections and just exactly how Cleveland County (Commissioners and School Board), North Carolina (State Officials) and National Officials ought to be leading us toward from right now going forward.

And, a reminder to all those who just got elected, All Y'all had better pay attention to the citizens of Cleveland County, NC and the USA. Otherwise, we citizens and voters will be

throwing YOU out at the next ELECTION!!!

Ain’t that how a democracy is supposed to work??? Keep the good, throw out the bad!! (Robert Queen, YOU and your crowd ain’t never coming back.)

Editor’s Note: ***Folks, word on the streets of Cleveland County is the CCGOP (the Official Republican Party) And the WeRCC (Republican Women of Cleveland County) are in total turmoil and disarray. It is expected that the leadership teams in both organizations will soon be changed out. By choice or otherwise. Robert A concurs. Robert A would also concur that the CC and NC Democrat Party Leadership should also be turned out. Especially Betsy Wells!!!***
